Electing The French President Pr:

Electing the French President Robert Elgie, 2016-07-27 This study of the 1995 French presidential election explains why Jacques Chirac was elected the fifth President of the Fifth French Republic it also places Chirac's election in the context of some of the more longstanding issues and debates in contemporary French politics examining the Fifth Republic's institutional structures the behaviour of its political parties the attitudes of its citizens and the nature of its governance

French Presidentialism and the Election of 1995 Lorna Milne, John Gaffney, 2018-12-21 First published in 1997 this volume examines the presidential elections one of the central events of the democratic process in France and arguably the main organising principle of French politics since 1962 provide an opportunity to assess the development of the regime More significantly they allow us to assess modifications to the office of president and to French Presidentialism which are both reflected in and affected by the electoral campaign and the elections themselves This book provides such an assessment with specific reference to the candidates issues and events of the 1995 Presidential elections [The Changing French Political System](#) Robert Elgie, 2000 Examining the nature of the Fifth Republic after its first 42 years this study looks at the challenges posed by new parties and new expressions of political mobilization Entrenched policy routines are being undermined by the emergence of new actors and the failure of old paradigms [Elections, Voting Rules and Paradoxical Outcomes](#) William V. Gehrlein, Dominique Lepelley, 2017-10-14 This monograph studies voting procedures based on the probability that paradoxical outcomes like the famous Condorcet Paradox might exist It is well known that hypothetical examples of many different paradoxical election outcomes can be developed but this analysis examines factors that are related to the process by which voters form their preferences on candidates that will significantly reduce the likelihood that such voting paradoxes will ever actually be observed It is found that extreme forms of voting paradoxes should be uncommon events with a small number of candidates Another consideration is the propensity of common voting rules to elect the Condorcet Winner which is widely accepted as the best choice as the winner when it exists All common voting rules are found to have identifiable scenarios for which they perform well on the basis of this criterion But Borda Rule is found to consistently work well at electing the Condorcet Winner while the other voting rules have scenarios where they work poorly or have a very small likelihood of electing a different candidate than Borda Rule The conclusions of previous theoretical work are presented in an expository format and they are validated with empirically based evidence Practical implications of earlier studies are also developed **The French Presidential and Legislative Elections of 2002** John Gaffney, 2018-01-18 The French elections of 2002 provided an opportunity to assess the political development of the regime and in particular developments within the complex phenomenon of French presidentialism within a party system In this thorough analysis John Gaffney looks at the institutional political and electoral moments of 2002 which saw both presidential and legislative elections and a major upheaval in the political life of France Bringing together a range of scholars the volume includes contributions from

historians political scientists economists cultural studies experts and media experts to offer a thorough and textured analysis of French politics

Posters, Propaganda, and Persuasion in Election Campaigns Around the World and Through History Steven A. Seidman, 2008 How effective are election campaign posters Providing a unique political history this book traces the impact that these posters as well as broadsides banners and billboards have had around the world over the last two centuries It focuses on the use of this campaign material in the United States as well as in France Great Britain Germany South Africa Japan Mexico and many other countries The book examines how posters evolved and discusses their changing role in the twentieth century and thereafter how technology education legislation artistic movements advertising and political systems effected changes in election posters and other campaign media and how they were employed around the world This comprehensive and original overview of this campaign material includes the first extensive review of the research literature on the topic Posters Propaganda and Persuasion will be useful to scholars and students interested in communications politics history advertising and marketing art history and graphic design

Choosing the Chief Roy Pierce, 1998 A comparison of two nations France and the United States that enhances the understanding of each By focusing on how presidential candidates emerge and how voters evaluate them CHOOSING THE CHIEF demonstrates how party systems social structures and pivotal historical developments have converged to produce distinctive patterns of presidential politics in both countries
