**The Electric Light** Émile Alglave, J. Boulard, 1884      **Electric Light** Sandy Isenstadt, 2019-03-26 How electric light created new spaces that transformed the built environment and the perception of modern architecture In this book Sandy Isenstadt examines electric light as a form of architecture as a new uniquely modern kind of building material Electric light was more than just a novel way of brightening a room or illuminating a streetscape it brought with it new ways of perceiving and experiencing space itself If modernity can be characterized by rapid incessant change and modernism as the creative response to such change Isenstadt argues then electricity instantaneous malleable ubiquitous evanescent is modernity's medium Isenstadt shows how the introduction of electric lighting at the end of the nineteenth century created new architectural spaces that altered and sometimes eclipsed previously existing spaces He constructs an architectural history of these new spaces through five examples ranging from the tangible miracle of the light switch to the immaterial and borderless gloom of the wartime blackout He describes what it means when an ordinary person can play God by flipping a switch when the roving cone of automobile headlights places driver and passenger at the vertex of a luminous cavity when lighting in factories is seen to enhance productivity when Times Square became an emblem of illuminated commercial speech and when the absence of electric light in a blackout produced a new type of space In this book the first sustained examination of the spatial effects of electric lighting Isenstadt reconceives modernism in architecture to account for the new perceptual conditions and visual habits that followed widespread electrification      Electric Light and Power Arthur Frederick Guy, 1894      Inventing the Electric Light Lisa Mullins, 2007 Describes the history of electric lighting from early times to the invention of the light bulb to specialized lighting of today      **Bulletin - National Electric Light Association**, 1913      **Electric Power Survey Made by Power Survey Committee, National Electric Light Association, Great Lakes Division, in Cooperation with North Central Division, Middle West Division, East Central Division** National Electric Light Association.
