interest and energy of adolescent students and expand their understanding of the world around them Resources for Teaching
Middle School Science developed by the National Science Resources Center NSRC is a valuable tool for identifying and
selecting effective science curriculum materials that will engage students in grades 6 through 8 The volume describes more
than 400 curriculum titles that are aligned with the National Science Education Standards This completely new guide follows
on the success of Resources for Teaching Elementary School Science the first in the NSRC series of annotated guides to
hands on inquiry centered curriculum materials and other resources for science teachers The curriculum materials in the
new guide are grouped in five chapters by scientific area Physical Science Life Science Environmental Science Earth and
Space Science and Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units
and science activity books Each annotation of curriculum material includes a recommended grade level a description of the
activities involved and of what students can be expected to learn a list of accompanying materials a reading level and
ordering information The curriculum materials included in this book were selected by panels of teachers and scientists using
evaluation criteria developed for the guide The criteria reflect and incorporate goals and principles of the National Science
Education Standards The annotations designate the specific content standards on which these curriculum pieces focus In
addition to the curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle
school science Among these is a chapter on educational software and multimedia programs chapters on books about science
and teaching directories and guides to science trade books and periodicals for teachers and students Another section
features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take
middle school students for interactive science experiences Another chapter describes nearly 140 professional associations
