**Intelligent Techniques in E-Commerce**

Zhaohao Sun, Gavin R. Finnie, 2013-03-20 E commerce has passed through a number of stages in the minds of most readers of the daily press Initially it was the province of the specialist and considered almost irrelevant to the needs and activities of everyday life companies looking for venture capital in this area had little if any chance of obtaining sufficient funds from the rather conservative investors who provided the only source of start up capital Then came the dot com boom and suddenly e commerce was the most exciting topic possible Venture capital was available from every possible source and almost any company with a com in its name could be assured of instant funding on request This boom was inevitably followed by the dot com bust and the press waned that the days of e commerce were gone perhaps never to return This apparently confusing stages of growth model is in reality nothing of the sort E commerce is simply the logical outcome of combining computers with tele communications networks The astonishing changes which a global economy has brought with it are reflected in the changes to the way we do business which are increasingly synonymous with e commerce Indeed the term e commerce itself is coming to mean only the transaction based component of e business any process that a business organisation conducts over a computer mediated network as Thomas Mesenbourg of the U S Census Bureau said in 1999 Technical, Business, and Legal Dimensions of Protecting Children from Pornography on the Internet Institute of Medicine, National Research Council, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Division on Engineering and Physical Sciences, Computer Science and Telecommunications Board, Committee to Study Tools and Strategies for Protecting Kids from Pornography and Their Applicability to Other Inappropriate Internet Content, 2002-03-29 In response to a mandate from Congress in conjunction with the Protection of Children from Sexual Predators Act of 1998 the Computer Science and Telecommunications Board CSTB and the Board on Children Youth and Families of the National Research Council NRC and the Institute of Medicine established the Committee to Study Tools and Strategies for Protecting Kids from Pornography and Their Applicability to Other Inappropriate Internet Content To collect input and to disseminate useful information to the nation on this question the committee held two public workshops On December 13 2000 in Washington D C the committee convened a workshop to focus on nontechnical strategies that could be effective in a broad range of settings e g home school libraries in which young people might be online This workshop brought together researchers educators policy makers and other key stakeholders to consider and discuss these approaches and to identify some of the benefits and limitations of various nontechnical strategies The December workshop is summarized in Nontechnical Strategies to Reduce Children s Exposure to Inappropriate Material on the Internet Summary of a Workshop The second workshop was held on March 7 2001 in Redwood City California This second workshop focused on some of the technical business and legal factors that affect how one might choose to protect kids from pornography on the Internet The present report provides in the form of edited transcripts the presentations at that workshop Advances in Mobile Commerce Technologies Ee-Peng Lim, Keng Siau, 2003-01-01 There is substantial interest in research in developing countries

especially in the use implementation and development of information technology and systems Many researchers have been moving toward an understanding of indigenous social and cultural structures and how they influence the use and development of information systems E Commerce and Cultural Values addresses these issues and brings together scholars to share their expertise on different aspects of the social side of e Commerce and information systems and how they impact the cultural values of a society

**Information Security Management: Global Challenges in the New Millennium** Dhillon, Gurpreet, 2000-07-01 Information security is moving much higher up the agenda of corporate concerns If information is our most important asset then we must gird ourselves up for the task of protecting it properly Information Security Management Global Challenges in the New Millennium focuses on aspects of information security planning evaluation design and implementation

Knowledge and Information Technology Management: Human and Social Perspectives Gunasekaran, Angappa, Khalil, Omar E. M., Mahbubur, Syed, 2002-07-01 Success in an increasingly competitive market depends on the quality of knowledge which organisations apply to their major business processes For example a supply chain depends on knowledge of diverse areas including raw materials planning manufacturing and distribution Likewise product development requires knowledge of consumer requirements new science new technology and marketing Knowledge is broadly defined as credible information that is of potential value to an organisation Knowledge management KM is a function of generation and dissemination of information developing a shared understanding of information filtering shared understandings into degrees of potential value and storing valuable knowledge within the confines of an accessible organisational mechanism

**Electronic Services: Concepts, Methodologies, Tools and Applications** Management Association, Information Resources, 2010-05-31 With the increasing reliance on digital means to transact goods that are retail and communication based e services continue to develop as key applications for business finance industry and innovation Electronic Services Concepts Methodologies Tools and Applications is an all inclusive research collection covering the latest studies on the consumption delivery and availability of e services This multi volume book contains over 100 articles making it an essential reference for the evolving e services discipline

**Strategies for eCommerce Success** Fazlollahi, Bijan, 2001-07-01 Annotation Examining key components and concepts in e commerce this study identifies critical factors relating to success in the global business environment It also describes the economics of e commerce and the practical issues concerning its application Specific chapters discuss privacy structure policy concerns customer loyalty trust internal audits payment mechanisms mobile communications and costs Contributors include scholars from North America Europe Saudi Arabia and China Annotation c Book News Inc Portland OR booknews com

Selected Legal Issues of E-Commerce Toshiyuki Kono, Christoph Paulus, Harry Rajak, 2002-08-28 So rapid have been the developments of e commerce that it is now frequently said that this is the future of any commerce and that it carries the potential for enormous growth at least for the business to business B2B sector This text covers some important legal issues arising in e commerce
