Elementary Literacy Lessons Cases And Commentaries From The Field:

Elementary Literacy Lessons Janet C. Richards, Joan P. Gipe, 2012-11-12 Innovative and practical this text helps prepare teachers to support the literacy learning needs of all children in grades K 6 including academically linguistically and culturally diverse students It features original teaching cases written by preservice teachers enrolled in field based reading language arts methods courses accompanied by commentaries written by experienced teacher educators and skilled classroom teachers High interest content and a reader friendly format encourage critical and reflective thinking about topics important to effective literacy instruction By promoting reflection about case issues the text helps prepare future teachers to respond to teaching narratives presented on the practical applications section of the PRAXIS II an examination required in most states for teacher licensure The authentic cases candidly and poignantly describe preservice teachers plans problems hopes disappointments dilemmas and reflective thinking as they address the multilayered complexities and ambiguities associated with learning to teach reading and language arts in elementary classrooms These teaching stories reveal glimpses of literacy instruction and allow us to enter real classrooms and experience the wide varieties of situations that reading language arts teachers encounter daily Although the cases are grouped according to specific dimensions of literacy theory and pedagogy just as in real classrooms other issues are woven through each case as well The commentaries provide scholarly and sometimes contrasting perspectives and approaches through which readers might consider the issues presented in the cases The commentaries represent only particular perspectives but readers are encouraged to explore and consider as many perspectives and issues as possible regarding each case Each chapter includes helpful pedagogical features New or critical concepts and terms listed at the beginning of each chapter alert readers to what might be unfamiliar vocabulary Applications and Reflections pages help readers take an active part in analyzing documenting and talking about the particular issues portrayed in the case narratives Using the questions on these pages the cases and accompanying commentaries can be read and discussed as a whole class activity in small collaborative groups or by individuals The questions can also be used by readers to guide their own case writing initiatives Margin References direct readers to correlated readings for the strategies and parallel concepts mentioned in the cases and commentaries Suggested readings can be discussed within the format of literacy study groups Annotated Bibliographies at the end of each chapter help readers construct more in depth knowledge for the instructional strategies and activities discussed in the teaching cases The cases commentaries and pedagogical features in this distinctive text provide rich opportunities for readers to discover what they need to know and how they need to think in order to teach reading and language arts effectively and successfully

Integrating Multiple Literacies in K-8 Classrooms Janet C. Richards, Michael C. McKenna, 2003-05-14 This text gives prospective and practicing teachers a comprehensive understanding of how to teach multiple literacies in elementary and middle school classrooms All of the literacies dance music visual arts popular culture media and computer technologies are

integrated with reading and writing. Balanced treatment is given to theoretical perspectives and practical applications. The text also features authentic cases written by preservice teachers and commentaries on the cases from practitioners and university professors. The cases are designed to prepare future teachers for the PRAXIS teacher certifying exam and others offered in many states. Three theoretical chapters support the practical applications. Chapter 1 addresses the benefits of writing and analyzing cases and the specific attributes of exemplary teaching cases and offers guidelines for teachers to author their own case narratives and questions for analyzing and discussing case issues with peers. Chapter 2 discusses the role of electronic symbol making and multiple sign systems in children's literacy and how children use symbols to receive and express meaning. Chapter 3 offers a theoretical framework that helps define and enable teachers to use the new literacies of Internet technology and provides a strong rationale for expanding traditional definitions of literacy.

Doing Academic Writing in Education Janet C. Richards, Sharon K. Miller, 2006-04-21. This clear reader-friendly book is carefully designed to help readers gain confidence and acquire competence in their academic writing abilities. It focuses on real people as they write and actively involves readers in the writing process. The authors' innovative approach encourages reflection on how professional writing initiatives connect to the personal self. For pre-service and in-service teachers, graduate students, school administrators, educational specialists, and all others involved in the educational enterprise, effective writing is important to professional success. Organized to help the reader move progressively and confidently forward as a writer of academic prose, *Doing Academic Writing in Education: Connecting the Personal and the Professional* features activities to engage readers in connecting their writing endeavors to their personal selves and in discovering their own writing attitudes, behaviors, strengths, and problem areas; practical applications to inform and support the reader's writing initiatives, including opportunities to engage in invention strategies to begin a draft, to revise and edit a piece of writing that is personally and professionally important, and to record reflections about writing; the voices of the authors and of graduate students who are pursuing a variety of academic writing tasks to serve as models for the reader's writing endeavors; and writing samples and personal stories about writing shared by experts in various contexts, offering hints about conditions, self-reflections, and habits that help them write effectively. All students and professionals in the field of education will welcome the distinctive focus in this book on connecting the personal and the professional and the wealth of practical applications and opportunities for reflection it provides.

Research in the Schools, 2000. *Resources in Education*, 2001-04. *Interdisciplinary Language Arts and Science Instruction in Elementary Classrooms* Valarie L. Akerson, 2020-08-11. This volume brings together evidence-based approaches to interdisciplinary language arts and science instruction. Firmly grounded in the research showing cognitive parallels between the two subjects and reflecting the many recommendations in recent years for using interdisciplinary instruction at the elementary level, its goal is to help teachers effectively use this kind of instruction in elementary classrooms. The book is organized around three themes: Introduction to Interdisciplinary Science and Language

Arts Instruction The Influence of Interdisciplinary Science and Language Arts Instruction on Children s Learning and Research on Preparing Elementary Teachers to Use Interdisciplinary Science and Language Arts Instruction Each chapter summarizes the research on its focal topic Examples of research applied to practice and questions and prompts for discussion and reflection help readers apply what they are reading in their own classroom contexts Teacher educators and prospective and practicing elementary teachers everywhere will benefit from this overview of current research and practice in interdisciplinary science and language arts instruction *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004
