Christos Yannaras Andreas Andreopoulos, Demetrios Harper,2018-09-03 Christos Yannaras is one of the most significant Orthodox theologians of recent times The work of Yannaras is virtually synonymous with a turn or renaissance of Orthodox philosophy and theology initially within Greece but as the present volume confirms well beyond it His work engages not only with issues of philosophy and theology but also takes in wider questions of culture and politics With contributions from established and new scholars the book is divided into three sections which correspond to the main directions that Christos Yannaras has followed philosophy theology and culture and reflects on the ways in which Yannaras has engaged and influenced thought across these fields in addition to themes including ecclesiology tradition identity and ethics This volume facilitates the dialogue between the thought of Yannaras which is expressed locally yet is relevant globally and Western Christian thinkers It will be of great interest to scholars of Orthodox and Eastern Christian theology and philosophy as well as theology more widely      Mysteries of Faith Mark McIntosh,2000-01-25 In this volume of The New Church's Teaching

Series Mark McIntosh introduces the great mysteries of the Christian faith the doctrines of creation revelation incarnation salvation and eschatology which are all held together by the doctrine of the Trinity To explain these beliefs for Christians today particularly the Trinity McIntosh begins with what we know the language of relationship and mutuality of friendship and family ties The central theme of the book is our relationship with Jesus and our relationship with our neighbor for such mutuality lies at the heart of every doctrine McIntosh's starting point is the fact that every one of us is a theologian for we are all drawn to approach the mysteries of faith with attention and love By drawing on our common experiences as members of a community of faith particularly through the sacraments of baptism and eucharist he helps us to explore these mysteries for ourselves and to see how we might live them in our daily lives As with each book in The New Church's Teaching Series recommended resources for further reading and questions for discussion are included      **Orthodox Christianity** Carl S.

**Companion to Augustine and Modern Theology** C.C. Pecknold, Tarmo Toom, 2013-07-18 The T T Clark Companion to Augustine and Modern Theology is both a theological companion to the study of Augustine and a resource for thinking about Augustine's importance in modern theology. Each of the essays brings Augustinian depth to a broad range of contemporary theological concerns. The volume unveils cutting edge Augustinian scholarship for a new generation and at the same time enables readers to see the timely significance of Augustine for today. Each of the essays not only introduces readers to key themes in the Augustinian corpus but also provides readers with fresh interpretations that are fully conversant with the theological problems facing the church in our world today. Designed as both a guide for students and a reference point for scholars, it will seek both to outline the frameworks of key Augustinian debates while at all times pushing forward fresh interpretative strategies concerning his thought. *SCM Core Text: Theological Hermeneutics* Alexander S.

Jensen, 2013-02-11 This book introduces theological hermeneutics by giving a historical account of the development of hermeneutical thinking. It defines hermeneutics as the analysis of the obstacles to understanding. The history of hermeneutical thinking and responses to obstacles is told here beginning with the allegorical interpretation of myths in Hellenism through to the contemporary view of the hermeneutical problem as universal. Following the opening chapters on the history of hermeneutical thought, the book presents an overview of the various contemporary hermeneutical schools of thought and shows their rootedness in different parts of the hermeneutical tradition. The focus is clearly on biblical interpretation; however, it does also take account of developments outside the field of theology as they influence the theological reflection on the hermeneutical problem. The questions raised and the possible answers suggested in this volume will be of interest to students of other disciplines such as philosophy and literature. **Religion and American Cultures**

Gary Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity, gender, politics, regionalism, ethics, and popular culture. This revised and expanded edition of *Religion and American Cultures: Tradition, Diversity, and Popular Expression* presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective. The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U.S. culture. Readers will discover that Americans aren't largely Protestant, Catholic, or Jewish anymore and that the number of popular religious identities is far greater than many would imagine. And although most Americans believe in a higher power, the fastest growing identity in the United States is the "nones" – those Americans who elect none when asked about their religious identity, thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized. The first volume explores America's multicultural communities and their religious practices, covering the range of different religions among Anglo-Americans and Euro-Americans as well as spirituality among Latino, African American, Native American, and Asian American communities. The second volume focuses on cultural aspects of religions.

addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

**Christos Yannaras** Basilio Petra,2020-01-01 Basilio Petr sees Christos Yannaras b 1935 as a philosopher and theologian whose refiguring on the one hand of Heidegger s refusal to define being in ontic terms and on the other of Wittgenstein s willingness to admit the inexpressible character of the mystical has led him to articulate a powerful vision of true human existence This bold interpretation outlines the passage from an ontic mode of nature governed by necessity to a mode of self transcendence and self offering beyond the limitations of decay and death In his native Greece Yannaras revolutionised the way theology had been done for much of the twentieth century This book examines the trajectory of Yannaras thought from his initial encounter with Heidegger s philosophy to his formulation via the tradition of the Greek Fathers of a modern critical ontology It is for both advanced students of philosophy and the growing scholarly audience interested in Yannaras work Written in accessible language that does not compromise intellectual rigour it is the only survey of the development of Yannaras philosophical thought as a whole

Tyson,2013-05-02 Can we know truth even though certain proof is unattainable Can we be known by Truth Is there a relationship between belief and truth and if so what is the nature of that relationship Do we need to have faith in reason and in real meaning to be able to reason towards truth These are the sorts of questions this book seeks to address In Faith's Knowledge Paul Tyson argues that all knowledge that aims at truth is always the knowledge of faith If this is the case then against our modernist cultural assumptions about knowledge truth cannot be had by proof Yet if this is true then mere information and simply objective facts do not for us as knowers exist Knowledge is always embedded in belief and knowledge and belief is always expressed in relationships histories narratives shared meanings and power Hence a theological sociology of knowledge emerges out of these explorations in thinking about knowledge as a function of faith      **Eastern Christianity**

**Human Agency** Alexander S. Jensen, 2016-05-13 Divine Providence and Human Agency develops an understanding of God and God s relation to creation that perceives God as sovereign over creation while at the same time allowing for a meaningful notion of human freedom This book provides a bridge between contemporary approaches that emphasise human freedom such as process theology and those influenced by it and traditional theologies that stress divine omnipotence This book argues that it is essential for Christian theology to maintain that God is ultimately in charge of history otherwise there would be no solid grounds for Christian hope Yet the modern human self understanding as free agent within certain limitations must be taken seriously Jensen approaches this apparent contradiction from within a consistently trinitarian framework Jensen argues that a Christian understanding of God must be based on the experience of the saving presence of Christ in the

Church leading to an apophatic and consistently trinitarian theology This serves as the framework for the discussion of divine omnipotence and human freedom On the basis of the theological foundation established in this book it is possible to frame the problem in a way that makes it possible to live within this tension Building on this foundation Jensen develops an understanding of history as the unfolding of the divine purpose and as an expression of God's very being which is self giving love and desire for communion This book offers an important contribution to the debate of the doctrine of God in the context of an evolutionary universe

The Goldilocks God Guy Collins, 2022-08-22 The Goldilocks God Searching for the via media explores the fertile middle ground between toxic Christianity and militant atheism Can Christianity be intellectually credible Why do our past failures and breakages offer comfort and hope How does the via media of Anglicanism offer tactics for dealing with contemporary challenges and uncertainties Whether exploring mystic Hildegard von Bingen strategic thinker Queen Elizabeth or theologians Jean Luc Marion and Sarah Coakley readers venture into a Trinitarian Goldilocks zone of faith hope and love Guy Collins makes a creative and heartfelt case for a spiritual thermodynamics of trial and error promise and glory Illuminating ancient Christian practice with cutting edge philosophy and theology he reveals the lifelong habits that are just right for encountering the mystery of God

**Holy Beauty** Chrysostomos A. Stamoulis, 2022-01-01 The philosophical and theological study of aesthetics has a long and rich history stretching back to Plato's identification of ultimate goodness and beauty together representing the eternal form Recent trends in aesthetic theory however characterised by a focus on the beautiful at the expense of the good have made it an object of suspicion in the Orthodox Church In its place Greek theologians have sought to emphasise philokalia as a truer theological discipline Seeking to reverse this trend Chrysostomos Stamoulis brings into conversation a plethora of voices from Church fathers to contemporary poets and from a Marxist political theorist to a literary critic Out of this dialogue Stamoulis builds a model for the re appropriation of Orthodoxy's patristic and Byzantine past that is no longer defined in antithesis to the Western present The openness he proposes allows us to perceive afresh the world shot through with divinity if only we can lift our gaze to see it Dismantling the false dichotomy philokalia or aesthetics is the first step
