Exploring the Mind of God: An Introduction to Shi'ite Legal Epistemology Hashim Bata, 2023-05-25 This book introduces readers to the legal epistemology that is advocated within Twelver Shi'ite *ul al fiqh* legal theory. It critically surveys the epistemological underpinnings upheld by post 19th century *U l* clerics that impel them to mainly deduce and interpret Sharia using scripture and literalist hermeneutical methods. An evaluation of these underpinnings uncovers the important juxtaposition that exists between the seminarian discourses of *ul al fiqh* and philosophy. The book hypothesises that *ul al fiqh* has both space and historical precedence to accept alternative epistemological theories that may enable orthodox Shi'ite clerics to display greater dynamism in deducing and interpreting Sharia.

Avicenna on the Ontology of Pure Quiddity Damien Janos, 2020-05-05 This study focuses on the metaphysics of the great Arabic philosopher Avicenna or Ibn Sina d. 1037 C.E. More specifically, it delves into Avicenna's theory of quiddity or essence, a topic which seized the attention of thinkers both during the medieval and modern periods. Building on recent contributions in Avicennian studies, this book proposes a new and comprehensive interpretation of Avicenna's theory of the pure quiddity, also known as the quiddity in itself and of its ontology. The study provides a careful philological analysis of key passages gleaned from the primary sources in Arabic and a close philosophical contextualization of Avicenna's doctrines in light of the legacy of ancient Greek philosophy in Islam and the early development of Arabic philosophy, *falsafah* and theology, *kalām*. The study pays particular attention to how Avicenna's theory of quiddity relates to the ancient Greek philosophical discussion about the universals or common things and Mu'tazilite ontology. Its main thesis is that Avicenna articulated a sophisticated doctrine of the ontology of essence in light of Greek and Bahshamite sources which decisively shaped subsequent intellectual history in Islam and the Latin West.

An Anthology of Philosophy in Persia, Vol. 5 S. H. Nasr, Mehdi Aminrazavi, 2014-11-17 Persia is home to one of the few civilizations in the world that has had a continuous tradition of philosophical thought lasting more than two and a half millennia. From the time Zoroaster brought the Gathas, the sacred scripture of Zoroastrianism, until today, it has had a philosophical tradition comprising diverse schools and various languages including Avestan and Pahlavi as well as Arabic and Persian. The West has seen surveys of Persian art and anthologies of Persian literature, but this work is the first to present a millennial tradition of philosophy in Persia in the form of translated selections and introductory sections for each period and figure. Existing translations have been used where possible, but most of the selections have been newly translated for this work, which, with the help of the explanatory introductions, makes possible an intellectual journey into a philosophical continent much of which has been uncharted for Westerners until now. The fifth and final volume of *An Anthology of*

Harrison,Tyler Dalton McNabb,2023-07-01 This book breaks new ground for the philosophy of religion by showcasing work that engages with the lived reality of the spiritual life It demonstrates that philosophy s relationship with spirituality is more than a historical curiosity and that in the twenty first century it is still meaningful to think about philosophy in connection with spirituality The chapters are organised around the following themes spiritual practice and philosophical understanding philosophical reflections on living a spiritual life philosophical problems concerning the spiritual life The first part discusses whether or not the topic of spirituality should be given a more fundamental role within the philosophy of religion and if so how that might be accomplished The second part addresses fundamental issues concerning human beings their lives and their self understanding in relation to the spiritual life The final part considers philosophical problems that emerge when discussing the spiritual life By bringing together discussions of these topics this volume constitutes a valuable resource for scholars in disciplines in which the spiritual life is a focus of interest particularly philosophy theology and religious studies **The**
