Good Natured Feminist Ecofeminism And The Quest For Democracy:

The Good-natured Feminist Catriona Sandilands, 1999 Heroic mothers defending home and hearth against a nature deformed by multinationalist corporate practice this may be a compelling story but it is not necessarily the source of valid feminist or ecological critique What's missing is the democratic element an insistence on bringing to public debate all the relations of gender and nature that such a view takes for granted This book aims to situate a commitment to theory and politics that is to democratic practice at the center of ecofeminism and thus to move toward an ecofeminism that is truly both feminist and ecological The Good Natured Feminist inaugurates a sustained conversation between ecofeminism and recent writings in feminist postmodernism and radical democracy Starting with the assumption that ecofeminism is a body of democratic theory the book tells how the movement originated in debates about nature in North American radical feminisms how it then became entangled with identity politics and how it now seeks to include nature in democratic conversation and especially to politicize relations between gender and nature in both theoretical and activist milieus **The Oxford**

Handbook of Feminist Theory Lisa Disch, Mary Hawkesworth, 2018-02-01 The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to explicate the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into fifty subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory **Living in the Eighties** Gil Troy, Vincent J. Animals as Legal Beings Maneesha Deckha, 2020 In Animals as Legal Beings Maneesha Deckha critically examines how Canadian law and by extension other legal orders around the world participate in the social construction of the human animal divide and the abject rendering of animals as property Through a rigorous but cogent analysis Deckha calls for replacing the exploitative property classification for animals with a new transformative legal status or subjectivity called beingness In developing a new legal subjectivity for animals one oriented toward respecting animals for who they are rather than their proximity to idealized versions of humanness Animals as Legal Beings seeks to bring critical animal theorizations and animal law closer together Throughout Deckha draws upon the feminist animal care tradition as well as feminist theories of embodiment and relationality postcolonial theory and critical animal studies Her argument is critical of the liberal legal view of animals and directed at a legal subjectivity for animals attentive to their embodied vulnerability and desirous of an animal friendly cultural shift in the core foundations of anthropocentric legal systems Theoretically informed yet accessibly presented Animals as Legal Beings makes a significant contribution to an array of interdisciplinary debates and is an innovative and astute argument for a meaningful more than human turn in law and policy

Engaging the Everyday John M. Meyer, 2015-03-13 Meyer pioneers a uniquely political approach to environmental social criticism that follows from a startling central proposition that it is not outright oppression and denialism that are the most significant impediments but what he aptly terms the resonance dilemma This is the failure of climate and environmental

challenges however important we may grant that they are to strike us as integral everyday concerns This lively eloquent accessible volume models the very style of social criticism that it calls for in response to this dilemma a resonant environmental criticism that works on rather than against everyday practices Lisa Disch Department of Political Science University of Michigan Ann Arbor author of *Hannah Arendt and the Limits of Philosophy* Ecocritical Menopause Nicole Anaë, 2024-07-08 *Ecocritical Menopause* Women Literature Environment The Change is the first volume of its kind to bring together cross sectional ecofeminist voices privileging women's menopausal positionality within literary works This collection reexamines menopause across the disciplinary fields of ecofeminism and ecocriticism as clearly the most neglected phase of the menstrual cycle and aims to develop a critical discourse in counterpoint to the persistent cultural and critical legacies that sustain underrating women in midlife In highlighting selected literary representations of female being in transition this volume includes Exploration of the core motifs mediating the fashioning of menopausal women including biology the body body shaming climacterium hysteria the crone hag figure femininity gender identity reproduction sexlessness and asexuality Reexamination of historical cultural biases that continue to perpetuate a devaluation of women after menopause such as ageism degeneration loss of fertility and myths of essentialism patriarchy and hegemony social taboos the medicalization of menopause and cultural menophobia Analysis of literature genres in which we find portraits of peri post menopause subjectivity such as autofiction crime fiction detective fiction folktales frame tale fiction mystery poetry short story and the whodunit Searching for the Future in the Past Keun-joo Christine Pae, Kathleen T. Talvacchia, 2024-11-14 Inclusive and progressive theological and religious perspectives have an important and distinctive contribution to make to an analysis of the critical issues facing women identified persons in the 21st century This incisive collection of essays recovers the missing theological voices grounded in those religious communities and traditions which gender and sexuality studies often overlook Feminist theologies have from their beginnings aspired to be the communal production of women identified persons who critically reflect on their experiences in the contexts of culture social standpoint religious practices and beliefs and imagination of the Feminine Divine Pae and Talvacchia draw from this heritage to engage the critical issues of today to create new perspectives They create an intellectual and discursive space where feminist theologians in all of their diversity renew and reclaim the rich legacies of the feminist theological tradition through inter generational racially diverse and transnational conversation **Utopias and the Environment** Geoffrey Berry, 2017-10-02 *Utopias and the Environment* explores the way in which the kind of dreaming or re-visioning known as the utopian imaginary takes environmental concerns into account This kind of creative intervention is increasingly important in an era of ecological crisis as we witness the failure of governments worldwide to significantly change industrial civilization from a path of business as usual In this context it is up to the artists in this case authors to imagine new ways of being that respond to this imperative and immediate global issue Concurrently it is also up to critics readers and thinkers everywhere to appraise these narratives of possibility for their

complexities and internal conflicts as well as for their promise as we enter this new era of rapid change and adaptation Because creative and critical thinkers must work together towards this goal the idea of the critical utopia coined by Tom Moylan in response to the fiction of the 1970s is now ingrained in the common argot and is one of the key ideas discussed in this book This development in the genre which combines self reflexivity and multiple perspectives within its dreaming represents the postmodern spirit in its most regenerative aspect This book is testament to such hopes and potential realities This book was originally published as a special issue of Green Letters *Eco-Feminism in Indian Literature* Ms. M. Young, 2016-05-26 With the worldwide sweep of gender neutral gender equal or gender sensitive public laws in international treaties national constitutions and statutes it is timely to document the raft of legal reform and to critically analyse its effectiveness In demarcating the academic study of the public law of gender this book brings together leading lawyers political scientists historians and philosophers to examine law s structuring of politics governing and gender in a new global frame Of interest to constitutional and statutory designers advocates adjudicators and scholars the contributions explore how concepts such as equality accountability representation participation and rights depend on challenge or enlist gendered roles and or categories These enquiries suggest that the new public law of gender must confront the lapses in enforcement sincerity and coverage that are common in both national and international law and governance and critically and pluralistically recast the public private distinction in family community religion customary and

Women and Nature? Douglas Vakoch, Sam Mickey, 2017-07-06 Women and Nature Beyond Dualism in Gender Body and Environment provides a historical context for understanding the contested relationships between women and nature and it articulates strategies for moving beyond the dualistic theories and practices that often frame those relationships In 1974 Fran oise d'Eaubonne coined the term ecofeminism to raise awareness about interconnections between women's oppression and nature's domination in an attempt to liberate women and nature from subordination Since then ecofeminism has attracted scholars and activists from various disciplines and positions to assess the relationship between the cultural human and the natural non human through gender reconsiderations The contributors to this volume present critical and constructive perspectives on ecofeminism throughout its history from the beginnings of ecofeminism in the 1970s through to contemporary and emerging developments in the field drawing on animal studies postcolonialism film studies transgender studies and political ecology This interdisciplinary and international collection of essays demonstrates the ongoing relevance of ecofeminism as a way of understanding and responding to the complex interactions between genders bodies and the

natural environment It will be of great interest to students and scholars of ecofeminism as well as those involved in environmental studies and gender studies more broadly
