Gorbachev's New Thinking and Third World Conflicts Jiří Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries. Despite countless studies of Soviet U S relations and U S relations with the Third World, the area of Soviet relations with the Third World has been left relatively undeveloped. This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations. In this new era of cooperation and diplomacy, the superpowers are working to resolve regional conflicts in and around Afghanistan, Nicaragua, Angola, and Cambodia. Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam. This volume addresses a number of such conflicts. In addition to those already mentioned, conflicts in Ethiopia, Namibia, and the Philippines are discussed, and their implications for Western policy makers are reviewed. As the contributors emphasize, despite current Soviet emphasis on peaceful solutions to regional conflicts, Gorbachev's New Thinking in foreign affairs is still decidedly selective. In some cases, the Soviet Union will actually encourage close ties with regional Third World powers as it has with India. It is also too much to expect that the Soviet Union, much less Cuba and Vietnam, will completely cut ties to revolutionary allies worldwide. That said, the 1990s will undoubtedly be characterized by new Soviet foreign policy styles. Their shape and form is the subject of this book. It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World. Contributors include Vernon Aspaturian, Bhabani Sen Gupta, William E. Griffith, Jerry F. Hough, Douglas Pike, Howard Wiarda, A. H. T. Sheikh, Sabahuddin Kushkaki, Colin Legum, H. de V. du Toit, Khien Theeravit, Frank Cibulka, Alvaro Taboada, Charles William Maynes, W. Bruce Weinrod, Jiri Valenta.

Leadership Style and Soviet Foreign Policy James M. Goldgeier, James M. Goldgeier, 1994. Drawing connections between the domestic political experiences of these leaders and their behavior toward the United States during key foreign policy events, Goldgeier offers fresh interpretations of the Berlin blockade crisis of 1948, the Cuban missile crisis of 1961, the Middle East war of 1973, and German reunification in 1989-90. He argues that the defining moment in the development of a Soviet leader's style came during the period when the leader acted to consolidate power and neutralize adversaries in order to succeed a dead or deposed leader. Success in this period confirmed the effectiveness of the leader's first truly independent political action and shaped his distinctive political style, a style that reappeared in international bargaining.

Soviet Foreign Policy Under Gorbachev Arnold Lawrence Horelick, 1986. This paper, reprinted from *National Security Issues of the USSR*, M. Feshbach, ed., Martinus Nijhoff Publishers, Dordrecht, The Netherlands, 1987, considers Soviet foreign policy under Gorbachev. Gorbachev's first priority in foreign policy is to consolidate weak or threatened positions. He will be selective about making new

commitments and sensitive to the economic and political costs of making bad choices He has initiated the most thorough and far reaching reorganization of the Soviet foreign policymaking structure since World War II and has blurred the division of labor between the Ministry of Foreign Affairs and the Communist Party s International Department This restructuring indicates a downgrading in the priority of the Third World in Soviet foreign policy The United States remains at the center of Gorbachev s foreign policy and arms control at the center of his American policy Failure by the United States and by the Western alliance to agree on a common strategy for dealing with the Soviet Union in the Gorbachev era could mean losing the opportunity either to pressure the Soviet Union effectively or to deal with it profitably Rand abstracts Foreign Policy Analysis Chris Alden, Amnon Arran, 2016-10-04 Building on the success of the first edition this revised volume re invigorates the conversation between foreign policy analysis and international relations It opens up the discussion situating existing debates in foreign policy in relation to contemporary concerns in international relations and provides a concise and accessible account of key areas in foreign policy analysis that are often ignored Focusing on how foreign policy decision making affects the conduct of states in the international system and analysing the relationship between policy agency and actors the volume examines foreign policy and bureaucracies domestic sources of foreign policy foreign policy and the state foreign policy and globalization foreign policy and change Features of the second edition include a wider range of contemporary case studies and examples from around the globe analysis of new directions in foreign policy analysis including foreign policy implementation and the changing media landscape fully updated material across all chapters to reflect the evolving research agenda in the area This second edition builds on and expands the theoretical canvas of foreign policy analysis shaping its ongoing dialogue with international relations and offering an important introduction to the field It is essential reading for all students of foreign policy and international relations
