Gothic Body Sexuality Materialism And Degeneration At The Fin De Sicle:

The Gothic Body Kelly Hurley, 1996-12-05 Readers familiar with Dracula and The Strange Case of Dr Jekyll and Mr Hyde may not know that dozens of equally remarkable Gothic texts were written in Great Britain at the end of the nineteenth century This book accounts for the resurgence of Gothic and its immense popularity during the British fin de si cle Kelly Hurley explores a key scenario that haunts the genre the loss of a unified and stable human identity and the emergence of a chaotic and transformative abhuman identity in its place She shows that such representations of Gothic bodies are strongly indebted to those found in nineteenth century biology and social medicine evolutionism criminal anthropology and degeneration theory Gothic is revealed as a highly productive and speculative genre standing in opportunistic relation to nineteenth century scientific and social theories

Victorian demons Andrew Smith, 2017-06-01 Victorian demons provides the first extensive exploration of largely middle class masculinities in crisis at the fin de si cle It analyses how ostensibly controlling models of masculinity became demonised in a variety of literary and medical contexts revealing the period to be much more ideologically complex than has hitherto been understood and makes a significant contribution to Gothic scholarship Andrew Smith demonstrates how a Gothic language of monstrosity drawn from narratives such as The Strange Case of Dr Jekyll and Mr Hyde and Dracula increasingly influenced a range of medical and cultural contexts destabilising these apparently dominant masculine scripts He provides a coherent analysis of a range of examples relating to masculinity drawn from literary medical legal and sociological contexts including Joseph Merrick The Elephant Man the Whitechapel murders of 1888 Sherlock Holmes s London the writings and trials of Oscar Wilde theories of degeneration and medical textbooks on syphilis

Post/modern Dracula John S. Bak, 2009-03-26 Post modern Dracula explores the postmodern in Bram Stoker s Victorian novel and the Victorian in Francis Ford Coppola s postmodern film to demonstrate how the century that separates the two artists binds them more than it divides them What are the postmodern elements of Stoker s novel Where are the Victorian traits in Coppola s film Is there a postmodern gloss on those Victorian traits And can there be a Victorian directive behind postmodernism in general The nine essays compiled in this collection address these and other relevant questions per the novel and the film at three distinct periods post modern Victorianism post modernism and finally postmodernism Part I on post modernist issues in Stoker s novel establishes the link between Victorian themes and postmodern praxes that begins with colonialist concerns and ends with poststructuralist signification Part II looks at the post modernist traits in Stoker s Dracula those obviously influenced by modernism but also with the help of the novel s plasticity vis vis the media over the last century by postmodernism Part III examines more closely the novel s postmodern characteristics particularly with respect to Coppola s 1992 film Bram Stoker s Dracula Dracula defies time and promises to undermine any critical study of it that precisely tries to situate it within a given epoch including a postmodernist one Given its relationship to late capitalist economy to post Marxist politics and to commodity culture and given its universal appeal to

human fears and anxieties fetishes and fantasies lusts and desires Stoker's novel will forever remain post modern always haunting our future as it has repeatedly done so our past Though scholars of Dracula and Gothic literature in general will find some of the essays innovative and engaging per today's literary criticism the book is also intended for both an informed general reader and a novice student of the novel and of the film As such a few essays are highly specialized in postmodern theory whereas others are more centered around the sociohistorical context of the novel and film and use various postmodern theories as inroads into the novel's or the film's study

William Hughes,2013 Literary fashions come and go but some hang around longer than others like Gothic literature which has existed ever since The Castle of Otranto in 1764 During this long while it has spread from England to the rest of Great Britain and across to the continent and off to America and Australia filling in the gaps more recently Most of it is in English but hardly all and it has adopted all styles from romanticism to modernism to postmodernism and even adjusted to feminist and queer literature and science fiction We have all read some Gothic tales or if not read then seen them in the cinema since they adapt well to film treatment and it would be hard to find anyone who has not heard of ghosts and vampires let alone Count Dracula and Frankenstein On the other hand some of us are inveterate Gothic fans reading one book or story after the other The Historical Dictionary of Gothic Literature follows this long and winding path first in an extensive chronology and then a useful introduction which explains the nature of Gothic and shows how it has evolved Obviously the dictionary section has entries on major writers and some of the best known works but also on geographical variants like Irish Scottish or Russian Gothic and Female Gothic Queer Gothic and Science Fiction This is provided in over 200 often substantial and always intriguing entries More can be found in a detailed bibliography including general works but also more specialized ones on different styles and genres and also specific authors This book should certainly interest the fans but also more serious researchers **Victorian Time** T. The French Invention of Menopause and the Medicalisation of Women's Ageing Alison M. Downham
Moore,2022-10-06 Doctors writing about menopause in France vastly outnumbered those in other cultures throughout the
entire nineteenth century The concept of menopause was invented by French male medical students in the aftermath of the
French Revolution becoming an important pedagogic topic and a common theme of doctors professional identities in
postrevolutionary biomedicine Older women were identified as an important patient cohort for the expanding medicalisation
of French society and were advised to entrust themselves to the hygienic care of doctors in managing the whole era of life
from around and after the final cessation of menses However menopause owed much of its conceptual weft to earlier themes
of women as the sicker sex of vitalist crisis of the vapours and of astrological climacteric years This is the first comprehensive
study of the origins of the medical concept of menopause richly contextualising its role in nineteenth century French
medicine and revealing the complex threads of meaning that informed its invention It tells a complex story of how women s
ageing featured in the demographic revolution in modern science in the denigration of folk medicine in the unique French
field of hygi ne and in the fixation on women in the emergence of modern psychiatry It reveals the nineteenth century French
origins of the still current medical and alternative health approaches to women s ageing as something to be managed

Artificial Generation Christina Parker-Flynn,2021-11-19 Artificial Generation Photogenic French Literature and the Prehistory of Cinematic Modernity investigates the intersection of film theory and nineteenth century literature arguing that the depth of amalgamation that occurred within literary representation during this era aims to replicate an illusion of life and its sensations in ways directly related to broader transitions into our modern cinematic age A key part of this evolution in representation relies on the continual re emergence of the artificial woman as longstanding expression of masculine artistic subjectivity which by the later nineteenth century becomes a photographic and filmic drive Moving through the beginning of film history from Georges Méliès and other silent filmmakers in the 1890s into more contemporary movies including Alfred Hitchcock's Vertigo 1958 and Blade Runner 2049 2017 the book analyzes how films are often structured around the prior century's mythic and literary principles which now serve as foundation for film as medium a phantom form for life's representation Artificial Generation provides a crucial reassessment of the longstanding mutual exchange between cinematic and literary reproduction offering an innovative perspective on the proto cinematic imperative of simulation within nineteenth century literary symbolism *Modernism and Race* Len Platt,2011-02-24 The transnational turn has transformed

modernist studies challenging Western authority over modernism and positioning race and racial theories at the very centre of how we now understand modern literature *Modernism and Race* examines relationships between racial typologies and literature in the late nineteenth and early twentieth centuries drawing on fin de siècle versions of anthropology sociology political science linguistics and biology Collectively these essays interrogate the anxieties and desires that are expressed in or projected onto racialized figures They include new outlines of how the critical field has developed revaluations of canonical modernist figures like James Joyce T S Eliot Ford Madox Ford and Wyndham Lewis and accounts of writers often positioned at the margins of modernism such as Zora Neale Hurston Claude McKay and the Holocaust writers Solomon Perel and Gisella Perl This collection by leading scholars of modernism will make an important contribution to a growing field
