Gotthard Graubner: Painting Gotthard Graubner, Heinz Liesbrock, 2010 This publication celebrates the eightieth birthday of German painter Gotthard Graubner born 1930 spanning his work from the 1950s to the present Devoid of figuration or metaphoric allusions the artist's Farbraumkörper or color space bodies evolve entirely out of evanescent color effects somewhat in the vein of Rothko Working on highly absorbent ground Graubner maximizes the murkier tendencies of his pigments Gotthard Graubner, 1995 **Gotthard Graubner: Drawings** Erich Franz, Gotthard Graubner, 2011

Gotthard Graubner's drawings in an elementary form embody what his entire artwork his canvas paintings his paintings on paper his graphic prints and his installations define for art They show a becoming a genesis you experience them as a process that leads you to what in them becomes visible Their visuality is not a given it materializes and in its manifestation lies their content The form evolving intensity of the line comes about from its hatched penetration and variation its concentration or disintegration Published in this book is a chronological cross section of his drawings since the end of the 1940s to the present that show how much his works ensue from within and move outwards and in their transition find themselves English and German text **Gotthard Graubner. Mit Den Bildern Atmen / Breathing with the Paintings**

Oliver Kornhoff, 2018-02 As one of the most important representatives of abstract painting Gotthard Graubner idiosyncratically pursued the various effects of colour This catalogue brings together around 50 pieces from graphic works to the large format object like colour space bodies The palette progresses from shades of grey brown and black to vibrant colours Ten extraordinary black and white photographs which poetically capture the movements of Buddhist monks dancing form the starting point The meditative moment as the central aspect in Graubner's art is also evident in the encounter with his vividly coloured painterly explorations 00Exhibition Arp Museum Bahnhof Rolandseck Remagen Germany 18.02.2018 10.02.2019

Gotthard Graubner, Gotthard Graubner: Chroma Eva Kraus, 2020-08 Gotthard Graubner 1930 2013 was a painter who celebrated the pure color freed from all object references and gave to it a physical presence in pillow like image carriers The Neues Museum Nürnberg has an impressive inventory of his works spanning four decades including many color space bodies This allows the development of the work to be traced in all important stages The majority of the paintings come from the Bockmann Collection which from the beginning entrusted the museum with permanent loans from Gotthard Graubner Gerhard Richter and A.R. Penck In 2016 the New Museum in Nuremberg dedicated an exhibition to Gotthard Graubner entitled Chroma which turned into a festival of color in the wide light flooded exhibition hall The catalog documents the show and presents all 24 Graubner works from the Bockmann Collection in full page images Jürgen Schilling the former director of Villa Massimo in Rome was won as an author He introduces Graubner as an artist who defies all common classifications and with his color space body created a tailor made instrument for his chromatic expeditions

Visual proficiency - A perspective on art education Kunibert Bering, Rolf Niehoff, 2015-12-18 Every day over a million images are uploaded to flickr This is a striking example of the so called flood of images that emerged with the beginning of the digital age A generation of adolescents has already been socialised with this flood of images and deals with it on a daily basis both in their networks and elsewhere Art education thus faces significant challenges art is the only school subject that deals with the problems inherent in images as images making them the focus of pedagogic activity This volume presents both the foundations for engaging with the phenomenon of the image in a competent and historically informed manner as well as the perspectives for art education that arise from these foundations It is based upon the conviction that providing orientation in a world defined by images does not mean following solely a technocratic functionalist or even neoliberal concept of education Quite the contrary providing an orientation for how to deal with images in a world that is dominated by them is a crucial part of the holistic development of young people s personalities The volume s main focus lies upon the new functions taken on both by the image and by art more generally It takes into account aspects of globalisation and participation and also includes more unusual views often from a cross media perspective of art and its historical repertory which even current image creation is unable to dispense with The volume also deals extensively with architecture and the images it conveys

The Artwork of Gerhard Richter Darryn Ansted, 2017-07-05 By uniquely treating Gerhard Richter s entire oeuvre as a single subject Darryn Ansted combines research into Richter s first art career as a socialist realist with study of his subsequent decisions as a significant contemporary artist Analysis of Richter s East German murals early work lesser known paintings and destroyed and unfinished pieces buttress this major re evaluation of Richter s other well known but little understood paintings By placing the reader in the artist s studio and examining not only the paintings but the fraught and surprising decisions behind their production Richter s methodology is deftly revealed here as one of profound yet troubled reflection on the shifting identity culture and ideology of his period This rethinking of Richter s oeuvre is informed by salient analyses of influential theorists ranging from Theodor Adorno to Slavoj i ek as throughout meticulous visual analysis of Richter s changing aesthetic strategies shows how he persistently attempts to retrace the border between an objective reality structured by ideology and his subjective experience as a contemporary painter in the studio Its innovative combination of historical accuracy philosophical depth and astute visual analysis will make this an indispensable guide for both new audiences and established scholars of Richter s painting
