Elements Of Teaching:

The Elements of Teaching James M. Banner, Harold C. Cannon, 2008-10-01 What are the characteristics of a great teacher What qualities of mind and spirit are necessary to help others acquire the knowledge through which they can understand and live a good life In this book James Banner and Harold Cannon draw on many years of experience to set forth the intellectual moral and emotional capacities that they believe the best teachers must possess Their book is an inspiring guide to current and future school teachers and to college and university professors indeed to everyone who teaches anything to anyone else Arguing that teaching is an art Banner and Cannon help teachers understand its components They analyze the specific qualities of successful teachers and the ways in which these qualities promote learning and understanding Throughout they illustrate their discussion with sharply etched portraits of fictional teachers who exemplify or fail to exemplify a particular quality Neither a how to book nor a consideration of the philosophy methods or activities of teaching this book more precisely assesses what it takes to teach It encourages teachers to consider how they might strengthen their own level of professional performance

The Elements of Education for Teachers Austin Volz, Julia Higdon, William Lidwell, 2019 What makes some teachers more effective than others What pedagogies and practices are fads and which are backed with quality evidence Which teaching strategies give teachers the biggest learning bang for their buck The authors have surveyed the research literature and carefully curated 50 elements of effective teaching elements such as direct instruction executive functions metacognition motivation and scaffolding to answer such questions and demystify the secrets of master teachers Designed specifically for clarity and ease of use this book is perfect for both new and experienced educators Each element uses a consistent architecture a simple definition concise overview of the research practical Dos and Don'ts for the classroom and a select quote to inspire reflection *The Elements of Education for Teachers* is an essential addition to any teacher's library and important reading for teachers' professional development

Approaches to Teaching Gary D. Fenstermacher, Jonas F. Soltis, 2004 The Liberationist approach views the teacher as a liberator of the mind The classical liberationist stresses initiation into ways of knowing and the development of the student's intellectual and moral virtues The emancipationist variation stresses freeing the minds of students from false consciousness about their class race gender or ethnic status and other forms of social repression
