Géographie de la santé en France François Tonnellier, Emmanuel Vigneron, 1999 Dresse un bilan des inégalités

gionales de santé en France en les reliant des hypothèses explicatives et des modèles d'organisation de l'espace. En mettant l'accent sur la reconnaissance locale de bassins de santé et sur les méthodes d'allocation de ressources, les auteurs soulignent que l'approche géographique est indispensable pour l'aménagement de l'espace sanitaire. **Éléments de géopsychiatrie**

Alexis Lallemant, 1887 Lecture critique et communication en sciences de la santé Louis Rachid Salmi, 2021-03-02 Les difficultés rencontrées par tous les auteurs de textes scientifiques pour présenter de façon optimale leurs travaux ainsi que les rendre visibles font de la publication un véritable défi. Outil indispensable pour appréhender la lecture et la communication scientifique, cet ouvrage est la fois une introduction à la lecture critique d'articles et un guide très pédagogique pour rédiger et comprendre les règles de publication scientifique de haut niveau ou préparer une communication orale ou affichée. L'offre de soins en milieu rural Sèverine Barbat-Bussière, 2009 La santé d'un individu en tant qu'elle n'est pas un champ d'étude pour le géographe, elle ne le devient que si on la considère sur un plan collectif. À cette échelle, elle engendre de multiples interrogations sur ses relations aux territoires et l'espace allant de réflexions démographiques et sanitaires, celles sur la structuration et l'organisation fonctionnelle des systèmes de santé. Menée dans le cadre d'une recherche-action en partenariat avec l'Assurance Maladie, cette thèse est focalisée sur l'offre de soins dans les campagnes auvergnates. Le thème de la couverture médicale des campagnes fait appel à différentes problématiques allant de la gestion des politiques sanitaires, l'aménagement du territoire et de la continuité du service public. Il interpelle aussi le géographe sur de nouveaux champs d'investigation au-delà d'une étude sur un simple équipement tertiaire d'un territoire. L'exemple auvergnat confirme que l'offre de soins en milieu rural ne soutient pas la comparaison avec celle des pôles urbains en termes d'effectifs de professionnels de santé et de spécialisation. Pour autant, ces zones rurales ne sont pas nécessairement des angles morts en terme de santé. L

offre de soins se stabilise au prix d'importantes recompositions entre les espaces impulsés par divers acteurs. L'Assurance Maladie professionnels de la santé etc. Celles-ci seront une des réponses à la question du renouvellement de générations de professionnels de santé en exercice et celle de l'attractivité potentielle des campagnes auvergnates. L'attractivité territoriale jouera un rôle primordial dans le futur pour une évolution favorable ou non de cette question.

Eléments de géographie générale ou tour du monde en quarante leçons, 1890 **Quand les professionnels de la santé et des sciences sociales se rencontrent** Sous la direction de Laurence Pourchez, Collectif, 2016-12-01. La collaboration entre professionnels de la santé et des sciences sociales est-elle possible ? Dans l'hypothèse affirmative, comment l'envisager ? Aux États-Unis, dès les années 1950, Benjamin Paul, qui figure parmi les pionniers d'une anthropologie médicale qu'il a enseignée à Harvard puis à Stanford, posait la question de la possibilité d'une collaboration entre professionnels de la santé et des sciences sociales. Il s'agissait surtout pour les professionnels des SHS de servir en quelque sorte d'interprètes de traducteurs culturels des programmes médicaux. Une sorte d'étude d'acceptabilité sociale. Car les difficultés de communication entre professionnels de la santé et des SHS étaient déjà bien connues. Qu'en est-il aujourd'hui ? Cet ouvrage pluridisciplinaire s'adresse tous ceux, professionnels de la santé et des SHS, étudiants inscrits dans des cursus médicaux ou paramédicaux qui s'intéressent aux sciences humaines et sociales, leur application dans les pratiques professionnelles. Il illustre par divers exemples d'opérationnalisation des sciences humaines et sociales plusieurs modules d'enseignements présents tant dans les études de médecine PACES que dans les écoles de sages-femmes ou dans les enseignements dispensés dans les Instituts de formation en soins infirmiers.
