## **Elephanta The Cave Of Shiva:**

**Elephanta** Wendy Doniger, 1999 Three descriptive essays and numerous fascinating photographs taken especially for this volume allow the reader to experience a major monument of Indian art the sixth century temple cave on Elephanta Island in Bombay harbor and its extraordinary stone sculptures The authors and the photographer capture the atmosphere of the cave and the spirit of the sculptures which portray the relentless energy and paradoxical power of Shiva greatest of all Hindu gods The photographs are particularly successful in revealing the dramatic alternation of light and dark that is so much a part of the beauty of the cave's interior Ms Berkson's trained and loving eye picks out the subtleties of the main sculptures and humorous details that the visitor might miss even on the site In the text Wendy O Flaherty interprets the myths of Shiva depicted in the sculpture Ms Berkson's essay supplies historical background and a stylistic analysis and George Michell examines the overall structure of the cave to show that it is a mandala like image of the heavenly mountain residence of Shiva and even of the structure of the universe itself The author as well as the publishers of the work deserve to be congratulated for providing this easily accessible guide to Elephanta Research Bulletin Vishveshvaranand Vedic Research Institute Vol I Dec 2002 *Elephanta* Carmel Berkson, **Elephanta** Wendy Doniger, 1983 Elephanta, 1983
