

The background of the book cover is a dark red, textured surface. Scattered across this surface are various electronic components and tools. These include several resistors of different colors and values, capacitors (some blue, some orange), integrated circuits, and a small digital display showing the number '14'. Tools like a screwdriver with a red handle and a pair of wire cutters are also visible. The central text is framed by two thin white horizontal lines.

Some of the buildable bots you'll meet include Yellow Drum Machine, which roves around looking for things to drum on, then drums records and accompanies itself playing catchy rhythms; Roomba Recon, a Roomba robotic vacuum with a wireless router and webcam on its back, programmed so you can drive it around your house and see what it sees from a browser window anywhere; Hamster Powered Strandbeest, which walks around on eight legs, powered by a hamster inside its hamster globe head. The winning project from MAKE's Most Entertaining Robot contest. Tiny Robots, made from common electronics components. The special Robots section will also include a roundup of hobby robotics highlights and a Primer on using the EZ Robot controller board to turn any animatronic toy into a fully controllable robot that recognizes faces and responds to voice commands.
