NATURE SPIRITS RUDOLF STEINER, 2016-09-05. Based on knowledge attained through his highly trained clairvoyance, Rudolf Steiner contends that folk traditions regarding nature spirits are based on spiritual reality. He describes how people possessed a natural spiritual vision in ancient times enabling them to commune with nature spirits. These entities, which are also referred to as elemental beings, became immortalised as fairies and gnomes in myth, legend, and children's stories. Today, says Steiner, the instinctive understanding that humanity once had for these elemental beings should be transformed into clear scientific knowledge. He even asserts that humanity will not be able to reconnect with the spiritual world if it cannot develop a new relationship to the elementals. The nature spirits themselves want to be of great assistance to us, acting as emissaries of higher divine spiritual beings.

Nature Spirits and What They Say Verena Stael von Holstein, 2019-12-11. I can perceive spiritual beings in my surroundings. I can communicate with higher spirit beings of either an elemental or non-elemental kind when they are willing. I can perceive the human aura as well as certain areas of the astral plane. I can see the aura of plants and animals. I can speak with the guardian beings of plants and animals inasmuch as they're interested. Verena Stael von Holstein. Verena has learned to see and speak to elemental and nature beings. What's more, she is able to translate their language into human terminology and thought. In this remarkable book, seventeen nature spirits are interviewed through her almost as if these beings were sitting in front of us. Through the conversations, we learn what spirits of fire, air, water, and stone have to say, as well as hearing from beings of glass, silver, salt, paper, and even spirits of our dwellings and homes. They speak about their work with nature and their regrettable lack of contact with human beings. They describe the secrets of the cosmos and tell of humankind's past and future. The nature beings have surprising views on the environment, on natural disasters, good and evil, love and redemption. The interviews throw up beautiful but sometimes disturbing insights into our world. *Nature Spirits and What They Say* offers an enchanting view of the world of elemental beings, but it also calls on us to recognize the seriousness of the situations they describe. As Verena explains, humans owe a huge amount to nature spirits, and we need to discover new ways of approaching them with full consciousness. This valuable book gives us the means to do just that.

nature in order to create a rooted and embodied life Nature spirits are unlike any other kind of spirit you can work with They don't care about making pacts or bargains Their focus is on taking care of nature and if you want to work with them you have to shift your approach to spirit work in a way that will seem radical and yet can help you develop a deeper relationship with the world around you In this book you will also learn the following How to meet and recognize the spirit and character of the land and communicate with it How to identify power spots and ley lines and form a bond with them How to work with the land you live on and make it into a place of power How to use all of your senses psychic and physical to work with nature spirits and much more If you're ready to develop a deeper relationship with nature and nature spirits this book will teach you a new approach to working with nature that will help you develop bond with the land

Nature Spirits of the Trees and What They Want to Tell Us Verena Stael von Holstein, 2019-11-06 People often ask us about the best way to come close to nature and the beings enchanted within it One way to do so is through wonder and astonishment to open our senses fully to nature's beauty and wisdom And here we can encounter entities that most closely resemble human beings the trees Verena has learned to communicate with elemental and nature beings and to translate their language into terms we can understand In her remarkable book *Nature Spirits and What They Say* she conversed with a range of beings including spirits of fire air water and stone In this new volume we hear from trees the nature spirits that in many ways are most similar to human beings Through Verena's remarkable clairvoyant abilities conversations with different tree species such as sweet cherry rowan elm and common oak are relayed These communications reveal compelling insights into the role of trees within the natural world and their relationships with the vegetable animal human and spirit kingdoms Particular emphasis is placed on the characteristics of trees that correspond with qualities of the human soul such as the oak's connection to individualism The tree spirits want to speak and are responsive all kinds of questions such as their roles in the landscape their specific shapes on problems that affect them in particular and on urgent issues that are relevant to all beings on earth such as climate change The interviews disclose beautiful fascinating and often challenging insights offering inspiration to help us build more constructive relationships to these wonderful entities
