Popular Science and our readers share The future is going to be better and science and technology are the driving forces that  
will help make it better **How Can Education Better Support the Mental Health & Wellbeing of Young People?**

**Contributions From Developmental Psychopathology & Educational Effectiveness Research** James Elliot Hall, Jana  
Marinka Kreppner, 2019-11-27 How can education better support the mental health wellbeing of young people Research in  
the 1970s that addressed this question has since proven seminal to the development of two co existing fields of research that  
continue to offer mutually informative insights Developmental Psychopathology DP and Educational Effectiveness Research  
EER DP and EER share the common agenda of understanding factors that relate to individuals learning and development DP  
focuses on the individual learning and developing in context EER investigates the educational systems structures and  
processes that shape how individuals learn and develop Given the complementarity of DP and EER it is somewhat surprising  
that they have rarely joined forces and synthesised knowledge to develop a fuller understanding of the roles educational  
contexts play in the mental health and wellbeing of students This Research Topic aims to stimulate such collaboration

**Tested** Linda Perlstein, 2025-03-14 The pressure is on at schools across America In recent years reforms such as No  
Child Left Behind have created a new vision of education that emphasizes provable results uniformity and greater attention  
for floundering students Schools are expected to behave more like businesses and judged almost solely on the bottom line  
test scores To see if this world is producing better students Linda Perlstein immersed herself in a suburban Maryland  
elementary school The resulting portrait detailed human and truly thought provoking is marked by the same narrative gifts  
and expertise that made Not Much Just Chillin so illuminating The school once deemed a failure is now held up as an example  
of reform done right Perlstein explores the rewards and costs of that transformation through the experiences of the people  
who lived it Nine year olds meditate to activate their brains before exams and kindergartners write paragraphs Teachers  
attempt to address diverse needs at the same time they are expected to follow daily scripts and feel compelled to focus on  
topics that will be tested at the expense of those that won't The principal attempts to keep it all together in the face of  
immense challenges Perlstein provides the first detailed view of how new education policies are modified by human realities  
Tested will be talked about thought about written about and will almost certainly play an important role in the national  
debate as the federal education law come up for renewal [Index Medicus](#) ,2004 Vols for 1963 include as pt 2 of the Jan
