Elephants have captivated the human imagination for as long as they have roamed the earth appearing in writings and cultures from thousands of years ago and still much discussed today In *Thirty Three Ways of Looking at an Elephant* veteran scientific writer Dale Peterson has collected thirty three essential writings about elephants from across history with geographical perspectives ranging from Africa and Southeast Asia to Europe and the United States An introductory headnote for each selection provides additional context and insights from Peterson's substantial knowledge of elephants and natural history The first section of the anthology *Cultural and Classical Elephants* explores the earliest mentions of elephants in African mythology Hindu theology and Aristotle and other ancient Greek texts *Colonial and Industrial Elephants* finds elephants in the crosshairs of colonial exploitation in accounts pulled from memoirs commoditizing African elephants as a source of ivory novel targets for bloodsport and occasional export for circuses and zoos *Working and Performing Elephants* gives firsthand accounts of the often cruel training methods and treatment inflicted on elephants to achieve submission and obedience As elephants became an object of scientific curiosity in the mid twentieth century wildlife biologists explored elephant families and kinship behaviors around sex and love language and self awareness and enhanced communications with sound and smell The pieces featured in *Scientific and Social Elephants* give readers a glimpse into major discoveries in elephant behaviors *Endangered Elephants* points to the future of the elephant whose numbers continue to be ravaged by ivory poachers Peterson concludes with a section on fictional and literary elephants and ends on a hopeful note with the 1967 essay *Dear Elephant Sir* which argues for the moral imperative to save elephants as an act of redemption for their systematic abuse and mistreatment at human hands Essential to understanding the history and experience of this beloved and misunderstood creature *Thirty Three Ways of Looking at an Elephant* is a must for any elephant lover or armchair environmentalist *Colonizing Animals* Jonathan Saha, 2021-11-11

Animals were vital to the British colonization of Myanmar In this pathbreaking history of British imperialism in Myanmar from the early nineteenth century to 1942 Jonathan Saha argues that animals were impacted and transformed by colonial subjugation By examining the writings of Burmese nationalists and the experiences of subaltern groups he also shows how animals were mobilized by Burmese anticolonial activists in opposition to imperial rule In demonstrating how animals such as elephants crocodiles and rats were important actors never fully under the control of humans Saha uncovers a history of how British colonialism transformed ecologies and fostered new relationships with animals in Myanmar *Colonizing Animals* introduces the reader to an innovative historical methodology for exploring interspecies relationships in the imperial past using innovative concepts for studying interspecies empires that draw on postcolonial theory and critical animal studies **The Positive Background of Hindu Sociology**
