National Geographic Kids Mission: Elephant Rescue Ashlee Brown Blewett, Daniel Raven-Ellison, 2014 Stories and facts that reveal the real life survival challenges that have caused elephants to become endangered and information about what kids can do to support conservation efforts

The Last Giants Levison Wood, 2020-11-03 From the award winning explorer an entertaining summary of what we know about the elephant and a call to change our behavior to ensure its survival Daily Mail The Last Giants satisfies British explorer Levison Wood's lifelong desire to learn more about the majestic African elephant These giants trek through some of Africa's most magnificent landscapes as they go in search of life giving waters and pastures El Nino's droughts and an insatiable ivory trade have cut African elephant numbers by a third in the last decade alone and if elephants disappear entirely Africa's entire ecosystem could collapse But Botswana has become a safe haven where one sixth of the world's elephants now reside Each year their numbers grow and an incredible migration takes place which Wood witnesses and records He teams up with local trackers to gain insight into how this iconic species survives camps out in the wild meets the people and tribes living on the migration's path and joins the park rangers whose job it is to protect these land giants equipped with his good eye for detail and better ear for dialogue The Wall Street Journal Adventurer Wood followed elephants on a 650 mile migration across Botswana for a British television program This fascinating companion volume to that series examines the past present and future of the African elephant Library Journal starred review A smart inviting portrait of elephants from a keen eyed observer Kirkus Reviews A rewarding look at the habits and habitats of the African elephant Comprehensively yet accessibly conveying Wood's lifelong fascination with African elephants his discussion will appeal to anyone keen on learning more about them Publishers Weekly

Ostriches and Other Flightless Birds Caroline Arnold, 1990-01-01 An introduction to the physical characteristics habits and natural environment of ostriches and a variety of other birds that do not fly including the rhea emu cassowary kiwi and tinamou

Elephants vs Whales Sophia Curie, AI, 2025-01-31 Elephants vs Whales presents a fascinating exploration of two mammalian giants comparing how evolution has uniquely equipped them for survival in their respective domains This comprehensive analysis delves into the remarkable anatomical differences between Earth's largest land animal the African elephant weighing up to 13 000 pounds and the magnificent blue whale reaching up to 400 000 pounds demonstrating how environmental pressures have shaped their physical characteristics over millions of years The book progresses systematically through detailed comparisons of their anatomical systems from the elephant's versatile trunk with its 40 000 muscles to the whale's specialized baleen feeding system Through a combination of modern imaging techniques and recent scientific research readers discover intriguing adaptations such as the whale's ability to hold its breath for 90 minutes and the elephant's highly efficient respiratory system Each chapter builds upon this foundation examining how physics environmental factors and evolutionary pressures have influenced their development What sets this work apart is its accessible approach to

complex scientific concepts making it valuable for both academic and general audiences interested in natural sciences The book draws from multiple disciplines including physics evolutionary biology and environmental science while maintaining clear explanations through practical examples and illustrations This systematic comparison offers readers a deep understanding of how similar biological challenges are addressed differently in terrestrial and marine environments showcasing the remarkable versatility of mammalian evolution

Giant Steps Richard Peirce, 2016-02-23 Elephants have long been targeted by humans not only are they killed for their ivory but their extraordinary strength intelligence and charisma have seen some of them captured chained and effectively jailed for life Bully and Induna are two African elephants both orphaned in organised culling operations and destined for lives in captivity Growing up far apart and quite differently Bully a former animal film star and the less fortunate Induna were both driven to react to their circumstances Induna even killed one of his carers Their individual situations reached a point where both were considered to be dangerous animals and were under threat of being put down This is the true story of their lives Conservationist Richard Peirce presents their individual narratives and the twists and turns of their fortunes the exploitation of these majestic but sensitive animals how they each came to be trapped in unsuitable employment and shunted about from one venue to the next before finding one another free at last on a farm in southern Africa
