Angels Andy Angel, 2012-06-01 If you think you know all about angels think again Although the modern Western world claims to have left angels behind as mythical creatures they are back in popular culture And much of what people are thinking exploring and believing about them finds its roots in ancient Jewish and Christian beliefs Andrew Angel opens up the surprising world of angels to interested enquirers through an examination of the ancient Jewish and Christian texts in which they are found He asks questions about what angels have to do with religious ecstasy surviving suffering and politics among other things finding surprising and sometimes controversial answers Informed by the latest scholarship yet accessible to all this book provides a well researched and thought provoking introduction to angels The White Giraffe Series: The

Elephant's Tale Lauren St John, 2010-05-14 The fourth book in the heart warming White Giraffe series by Lauren St John featuring the African adventures of Martine and her magical white giraffe When a sinister stranger calls at Sawubona Martine is in for a shock He claims he s the rightful owner of the reserve and every animal in it including the white giraffe With just thirteen days to save her home Martine and Ben stowaway on a plane to Namibia where the key to the mystery lies But trouble follows them to the desert dunes There they uncover a plot to destroy a herd of rare elephants And to rescue them they need the help of the elephants themselves **The 30 Trials of Ix and the Angels** Mark Durant, 2004-09-16 The 30 Trials of Ix and the Angels follows Ix Pantheos from his awakening in a ruined castle through his travels to the moon the sun and beyond carried along by the songs of thirty angels as they initiate him into the mysteries of consciousness and the nature of existence The answer seemingly found and the journey apparently nearing its end Ix then finds that he must suffer

the destruction of his former self and face a new struggle to hold onto all that was revealed to him Born of a series of meditations performed by the author and utilizing an eclectic mix of various world religious and occult philosophies the story is a surreal journey into the depths of the mind echoing Ix s own quest to redeem both himself and mankind While it stands alone as an engaging read for those unacquainted with the various schools of inquiry that comprise the fertile field within which it took root it retains that symbolism which may prove insightful to like minded readers who find themselves treading its obscure paths

Living in Words Garry L. Hagberg, 2023-05-16 *Living in Words* Literature Autobiographical Language and the Composition of Selfhood pursues three main questions What role does literature play in the constitution of a human being What is the connection between the language we see at work in imaginative fiction and the language we develop to describe ourselves And is something more powerful than just description at work that is does self descriptive or autobiographical language itself play an active role in shaping and solidifying our identities This adventurous book suggests that interdisciplinary work interweaving philosophy and literature can answer these questions Main sections investigate the relational model of the self derived from American pragmatism the sense of rightness that can attach to descriptions of ourselves and our actions the analogy between interpreting works of art and the interpretation of persons the special power of literature as a self compositional tool and the architecture of self narratives and the corresponding growth of self understanding what we can learn from cautionary tales concerning the tragic lack of self knowledge the possibility of rewriting and rereading the self and overall the assembly of real life structures of self definition through our reflective engagement with literature Throughout the book develops a model of active self constitutive literary reading that provides language for and sharpens self individuation and sensibility Conjoining a relational conception of selfhood to a narrative conception of self understanding *Living in Words* makes a powerful claim that aesthetic experience and our engagement with the arts is a far more serious matter in human life and society than it in some quarters is taken to be

Flamenco Hips and Red Mud Feet Dixie Salazar, 2010-02-15 Duality is at the center of *Flamenco Hips and Red Mud Feet* a striking collection of poems both intimate and grand The poet Dixie Salazar has spent a lifetime forging her own identity out of two cultures On one side was

my father's world Spanish speaking from las montañas On the other side was my mother's world a deep Southern drawl wafting from the magnolia and chinaberry trees As her poems reveal she is a product of both cultures but not completely at home in either one In the two sections of the book Inside and Outside parallelism and symmetry interact with themes both public and private Flamenco Hips and Red Mud Feet presents thirty nine poems in free verse and traditional poetic forms especially the sonnet and adaptations of the sonnet The sonnet usually consisting of the octet eight lines that sets up the main idea of the poem and the sestet six lines that resolves answers or completes the poem is a natural form for a poet whose identity is divided Double sonnets and double linked sonnets doubled reflect the duality the poet feels inside her skin And the poems written to and for a lost sister reinforce the theme Throughout this provocative book Salazar navigates the alienation of her cultural in between ness By the end she appears to become more comfortable with her status of outsider deciding that she doesn't need to give in to pressures to pick a side or to accept others ideas of where her own borders begin or end

Our Town Cynthia Carr, 2007-03-27 The brutal lynching of two young black men in Marion Indiana on August 7 1930 cast a shadow over the town that still lingers It is only one event in the long and complicated history of race relations in Marion a history much ignored and considered by many to be best forgotten But the lynching cannot be forgotten It is too much a part of the fabric of Marion too much ingrained even now in the minds of those who live there In Our Town journalist Cynthia Carr explores the issues of race loyalty and memory in America through the lens of a specific hate crime that occurred in Marion but could have happened anywhere Marion is our town America's town and its legacy is our legacy Like everyone in Marion Carr knew the basic details of the lynching even as a child three black men were arrested for attempted murder and rape and two of them were hanged in the courthouse square a fate the third miraculously escaped Meeting James Cameron the man who'd survived led her to examine how the quiet Midwestern town she loved could harbor such dark secrets Spurred by the realization that like her millions of white Americans are intimately connected to this hidden history Carr began an investigation into the events of that night racism in Marion the presence of the Ku Klux Klan past and present in Indiana and her own grandfather's involvement She uncovered a pattern of white guilt and indifference of black anger and fear that are the hallmark of race relations across the country In a sweeping narrative that takes her from the angry energy of a white supremacist rally to the peaceful fields of Weaver once an all black settlement neighboring Marion in search of the good and the bad in the story of race in America Carr returns to her roots to seek out the fascinating people and places that have shaped the town Her intensely compelling account of the Marion lynching and of her own family's secrets offers a fresh examination of the complex legacy of whiteness in America Part mystery part history part true crime saga Our Town is a riveting read that lays

The Philosophy of Autobiography Christopher Cowley, 2015-10-26 This book promises to be the first of its kind a philosophical investigation of autobiographical writing All of us are autobiographers at least some of the time and all of us crave certain kinds of recognition and confirmation from others just as we fear blame and reproach from those who know us well The philosophy of autobiography examines this fundamental story telling process and its place in our lives As such it straddles a number of long standing philosophical questions having to do with the meaning of life the problems of autonomy and responsibility and authenticity the nature of self deception and bad faith the structure of the self and its existence through time the question of the reliability and meaning of memory and the problem of understanding another person and imaginatively identifying with him The contributors to the volume are mostly philosophers but many of them have interests outside philosophy and have been informed by research findings from literary theory and from psychiatry Some of the contributors are also literary theorists and one of them has even published autobiographical work Contributors also examine specific autobiographies and diaries of philosophers and non philosophers as well as fictional works using an autobiographical format in order to explore the philosophical implications and presuppositions of the genre The result is a most useful and productive interdisciplinary exchange
