**Proceedings of the 2024 3rd International Conference on Social Sciences and Humanities and Arts (SSHA 2024)** Mohd Fauzi bin Sedon, Intakhab Alam Khan, Mehmet Cüneyt Birkök, KinSun Chan, 2024-06-20 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today's increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc Teaching the Humanities Online: A Practical Guide to the Virtual Classroom Steven J. Hoffman, 2010-12-15 This practical guide is essential for anyone new to or intimidated by online instruction Drawing on the expertise of teachers of the humanities who have deep experiences in the online environment this work explores a variety of areas within the online teaching experience It discusses the differences between online and face to face learning environments and assesses and evaluates best practices in developing and teaching online courses This volume is not really about the technology but instead focuses on the ways in which available technologies can be used to enhance

teaching in both synchronous and asynchronous forums and as such it will still be worth the read many years from now even in the face of rapid technological change Contributions from faculty members teaching in art education communication English history social studies education and interdisciplinary studies departments as well as directors of writing centers and online education and distance learning programs are included Essays in this volume will assist instructors faculty members and administrators new to the online experience but who want to learn more about making the transition to online teaching in navigating this transition gracefully
