Tanzania in Transition Kjell J. Havnevik,Aida C. Isinika,2010 This book is the first comprehensive contribution to understanding the character of important societal transitions in Tanzania during Benjamin Mkapa s presidency 1995 2005 The analyses of the trajectory of these transitions are conducted against the background of the development model of Tanzanian s first president Julius Nyerere 1961 1985 a model with lasting influence on the country This approach enables an understanding of continuities and discontinuities in Tanzania over time in areas such as development strategy an ideology agrarian land gender and forestry issues economic liberalization development assistance corruption and political change The period of Mkapa s presidency is particularly important because it represents the first phase of Tanzania s multi party political system Mkapa s government initially faced a gloomy economic situation Although Mkapa s crusade against corruption lost direction his presidency was characterised by relatively high growth rates and a stable macro economy Rural and agrarian transitions were dominated by diversification rather than productivity growth and transformation Rural attitudes in favour of land markets emerged only slowly but formal land disputes showed more respect for women s rights Some space emerged for widening local participation in forest management but rural dynamics was mainly found in trading settlements feeding on economic liberalization and artisanal mining The transitions documented and analysed of Mkapa s presidency however indicate only limited transformational change Rural poverty is therefore likely to remain deep and the sustainability of economic development to be at risk in the future Mkapa was however able to protect the legacy of peace and political stability of Nyerere but there were nevertheless important challenges to the first multiparty elections and governance and particularly in Zanzibar The post script covering 2005 2010 indicates that the incumbent president Jakaya Kikwete has yet to prove that he can change this legacy of Mkapa The contributions to the eleven chapters of this book are evenly shared between Tanzanian Nordic and other European researchers with a long term commitment to Tanzanian development research The book is dedicated to the youth of Tanzania *Smarter Crowdsourcing for Anti-Corruption* Beth Simone Noveck,Kaitlin Koga,Rafael Aceves Garcia,Hannah Deleanu,Dinorah Cantú-Pedraza,2018-04-30 Corruption presents a fundamental threat to the stability and prosperity of Mexico and combating it demands approaches that are both principled and practical In 2017 the Inter American Development Bank IDB approved project ME T1351 to support Mexico in its fight against corruption using Open Innovation Thus the IDB partnered with the Governance Lab at NYU to support Mexico s Secretariat of Public Service Secretar a de la Funci n P blica to identify innovative solutions for the measurement detection and prevention of corruption in Mexico using the GovLab s open innovation methodology named Smarter Crowdsourcing The
