see the strategic planning process from a senior administrator's perspective in real time with the idea of empowering all participating stakeholders for input and ownership of the process. This book shows education administrators, faculty, and students how to develop a vision that is understood, shared, and acted upon; create a mission that adequately communicates who we are to be used in guiding every decision of the institution; meet accreditation requirements of institutional effectiveness; scan and analyze the external environment for changes that create either opportunities or threats to the institution; establish and implement strategy, tactics, and action plans; evaluate and control the strategic planning process; assess the cultural and internal situation. The book's end-of-chapter questions provide projects and assignments that reinforce the text materials. Also included are sample strategic plans for departments, schools, and colleges illustrating how to apply textual concepts and principles. Yet another valuable feature of *Strategic Planning for Private Higher Education* is its presentation of a master case study illustrating a number of key points including interaction between a college president and board of trustees; the use of a strategic planning task force to collect primary data and to expand participation; rewriting the mission statement of the college; and an illustration of a strategic planning calendar in relation to the budgeting calendar.

The MECCA Factor Tom Ruddell, 1996 If I Was Organized, I'd Be A Librarian: Organizational Tips From a Librarian Dale Carpenter, 2015-01-02 How much time do you waste every month making a food shopping list? An Organized Librarian gives you a complete food shopping list you should store in your computer, customize to your likes and dislikes, and hang on your fridge. When you need something, just mark it in pencil on the list, take the list to the store, and you will never forget to pick up items again. The three keys to our three house entrances look a lot alike, so I turned the main entrance key facing the opposite direction on the key ring from the other two. Saves a lot of time finding the right key. This are just some of the organizational tips Dale Carpenter provides in this book designed to help you manage and organize your life. Dale Carpenter has been organized most of his life and has made a living out of creating, organizing, and managing corporate libraries.
