The Great Mosaic Eye Robin Allott,2012-03-09 This is a revised and extended version of the Great Mosaic Eye originally published in 2001 There have been major changes in neuroscience and in language research since then Apparently disparate segments of research have started to come together and it is necessary to recast both the structure and the content of the book The extended title of the book with the addition of the word Society reflects this Another important change is that the book as originally published fell into two halves part 1 being the text of the book and part 2 an inserted CD which included a great deal of additional material that made possible important graphical and video content not easily presented in text form This new edition attempts to integrate all the material contained in the earlier edition but relying on links to the Internet for material in place of that contained in the inserted CD This new book as indeed was the case for the earlier version was intended to bring together a mass of material which had been published separately over more than 40 years under the titles The Physical Foundation of Language first published 1973 and recently reprinted The Motor Theory of Language 1989 The Natural Origin of Language The Structural Inter relation of Language Vision and Action The Child and the World How the child acquires language How language mirrors the world 2005 All these are now in print so that it is not necessary to repeat in this book much of the extensive discussion in the earlier books all supplemented by other recent material readily accessible on the Internet at

Vitaly Surnin,2013-12-28 This book is the preliminary part of a great work titled THE BOOK OF THE EGYPTIAN The beginning of the basic Egyptology or a key to the understanding of history philosophy and world religion Usually the introduction is made in the form of a brief preface or foreword but I got a whole book as the first step in a multi volume publication of the study The purpose of this specific introduction as the beginning of serious research is right at the level of the opening to inspire a reader showing him in a clear visual and comprehensible form the whole true mechanism of the hieroglyphic writing To achieve this I will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning of words the whole idea but only individual sounds letters or their combination syllables This scientific myth will be finally deprived of the status of scientific knowledge and the translation of the Phaistos disc on the contrary will be clearly shown what is called broken apart and will be read in the ancient hieroglyphic language united by the principle of construction in the language of the ancient Egyptians I can say that it will not be two simultaneously existing systems of hieroglyphs translation as well as two Egyptologies one will be false and the other true To prove the validity of the system of translation I wanted to give you immediately not only a complete translation of the text of the Phaistos disc where the number of occurrences of each hieroglyph is not big 1 to 19 times but the translation of the whole ancient Egyptian writing because the number of times it is used in there is thousands if not even millions And each such use of each hieroglyph is translating in the same way so it creates the full reading of the hieroglyphic texts writing which will be easily read by everyone with the dictionary of hieroglyphs in the future The main reason why I wanted to do it is because at first I read the ancient Egyptian texts and only then by chance came across with the hieroglyphs of the Phaistos disc But then I decided to set a different aim to teach the reader to think and not just to read hieroglyphs Since we have no ancient Egyptian temple and you re not its novice the method of achieving the aims will be different than in the antiquity First of all I would suggest not a translation of ancient Egyptian hieroglyphs but a complete translation of the Phaistos disc and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world Let them answer me the question not knowing the translations of ancient Egyptian texts whether they think this translation of the Phaistos disc is correct So when I completely publish The Book of Egyptian it will become clear who they are and where do they lead all of you As they always test the students it s a time to test them as well Will they pass the test I do not know but any way you my reader will get to know about it in the main manuscript and will be able to draw your own conclusions about their intellectual level Therefore I recommend you to take this message of the book at least with the attention because not every day the

science gets a ready revelation designed in the form of scientific study And here the attention and common sense will help the reader to re look the original pure uncomplicated meaning of the Hieroglyphs which through the veil of delusion will finally begin to appear in their true original and vibrant colors and finally get from the nether world into the realm of the living
