The Transformative Power of Faith Erin Dufault-Hunter,2012-04-26 The Transformative Power of Faith examines how and why some people particularly those coming out of highly self destructive violent and antisocial backgrounds who appear beyond repair experience profound personal transformation through conversion to strong faith Illustrated by stories of converts who came out of serious drug addiction gangs and poverty through adherence to a demanding faith Erin Dufault Hunter argues for a narrative approach to conversion This holistic theoretical perspective offers an alternative epistemological stance to reductionistic models sometimes perpetuated among social scientists and religious ethicists alike In this study the narrative lens gives vision of the religious Other a depth and complexity too often lacking Such an approach allows a deeper understanding of the dynamics of personal transformation in ways that make sense of psychological and social factors without ignoring so called spiritual ones

God in Gotham Jon Butler,2020-09-29 Perhaps nothing has ever been so frightening to people of faith as the modern Pluralistic and rationalizing modernity would seem the antithesis of traditional religious practice But as historian Jon Butler shows even Manhattan the supposed capital of American secularism has consistently proven a place steeped in devotion

Method Matters David L. Petersen,2009 **What is Religion?** Jeppe Sinding Jensen,2014-09-11 Religious belief is one of the most pervasive and ubiquitous characteristics of human society Religion has shadowed and illuminated human lives since primitive times shaping the world views of cultures from isolated tribes to vast empires Starting from the premise that religion is a concept which can be analysed and compared across time and cultures What is Religion brings the most up to date scholarship to bear on humankind s most enduring creation The book opens with a brief history of the idea of religion then divides the study of religion into four essential topics types representations practices and institutions and concludes with a final eye opening chapter on religion today Packed with case studies from a wide range of religions past and present What is Religion offers a very current comprehensive yet intellectually challenging overview of the history theories practices and study of religion Accessible wide ranging engaging and short What is Religion is written primarily for undergraduate students in the study of religion but it will also be invaluable for students of anthropology history psychology sociology and theology as well as anyone interested in how and why humans came and continue to be religious Problematizing Religious Freedom Arvind Sharma,2011-08-08 The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon To begin with the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self evident in nature It is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing **A Beginner's Guide to the Study of Religion** Bradley L. Tel Dan in Its Northern Cultic Context Andrew R. Davis, 2013-11-04 This work presents in detail a description of archaeological data from the Iron II temple complex at Tel Dan in northern Israel Davis analyzes the archaeological remains from the ninth and eighth centuries paying close attention to how the temple functioned as sacred space Correlating the archaeological data with biblical depictions of worship especially the textual strata of 1 Kings 18 and the book of Amos Davis argues that the temple was the site of official and family religion and that worship at the temple became increasingly centralized Tel Dan's role in helping reconstruct ancient Israelite religion especially distinctive religious traditions of the northern kingdom is also considered

The End(s) of Religion Eric Bain-Selbo, 2022-01-13 Eric Bain Selbo argues that the study of religion from philosophers to psychologists and historians of religion to sociologists has separated out the ends or goals of religion and thus created the conditions by which institutional religion is increasingly irrelevant in contemporary Western culture There is ample evidence that institutional religion is in trouble and little evidence that it will strengthen in the future giving some reason to believe that we are in the process of seeing the end of religion At the same time various cultural practices have met in the past and continue to meet today certain fundamental human needs needs that we might identify as religious that now are being fulfilled through what Bain Selbo calls the religion of culture The End(s) of Religion traces the way that the very study of religion has led to institutional religion being viewed as just one human institution that can address our particular religious needs rather than the sole institution to do so In turn ultimately we can begin to see how other institutions or forms of culture can function to serve these same needs or ends

Religious Experience and the Knowledge of God Harold A. Netland, 2022-02-08 For many Christians personal experiences of God provide an important ground or justification for accepting the truth of the gospel But we are sometimes mistaken about our experiences and followers of other religions also provide impressive testimonies to support their religious beliefs This book explores from a philosophical and theological perspective the viability of divine encounters as support for belief in God arguing that some religious experiences can be accepted as genuine experiences of God and can provide evidence for Christian beliefs

Dangerous Religious Ideas Rachel S. Mikva, 2020-11-03 Reveals how faith traditions have always passed down tools for self examination and debate because all religious ideas not just extremist ones can cause harm even as they also embody important moral teachings Scripture s abiding relevance can inspire great goodness such as welcoming the stranger and extending compassion for the poor But its authority has also been wielded to defend slavery marginalize LGBTQ individuals ignore science and justify violence Grounded in close readings of scripture and tradition in Christianity Islam and Judaism religious scholar Rachel Mikva shows us that the Abrahamic religions have always been aware of their tremendous power both to harm and to heal And so they have transmitted their sacred stories along with built in tools interpretive traditions to do the necessary work of taking on dangerous religious ideas and fostering self critical faith By exploring the themes of Scripture Election Reward and Punishment Mikva examines how the interpretive methodologies of these religions have identified and grappled with their perilous power and positive potential Many readers presume that their understanding of scripture s meaning is absolute forgetting how these sacred texts and the history of interpretation have valued multiple perspectives and recognized ongoing rhythms of change It s not a modern phenomenon to debate the nature of truth hold space open for doubt value humility and question our capacity to know things especially about God and God s will with certainty In fact none of the traditions could remain vital or thrive together without a sustained practice of self critique Dangerous Religious Ideas reframes the way we talk about faith to create a space where public discussion of religion is more constructive nuanced and socially engaged

Theory and Method in the Study of Religion , 2013-09-26 Theory and Method are two words that cause considerable consternation in the academic study of religion Although everyone claims to be aware of and to engage them the fact of the matter is that they remain poorly understood Some see the terms as irritants that get in the way of data interpretation and translation Others may invoke them sporadically to appear in vogue but then return quickly and myopically to their material and with little concern for the larger issues that such terms raise To contribute to these debates the present volume reproduces select articles from Method and Theory in the Study of Religion MTSR from the first 25 volumes of the journal and allows a group of younger scholars to introduce and review them asking if the issues raised are still relevant to the field Contributors include Matt Sheedy Robert A Segal James B Apple Neil McMullin Rebekka King Russell McCutcheon Craig Martin Donal Wiebe Emma Cohen Robert N McCauley E Thomas Lawson Steven Engler Mark Q Gardiner Bruce Lincoln Sarah E Rollens Burton Mack Yasmin Merchant
