The last of eight substantial sections is a repository of new theories about how group singing practices work Throughout the authors problematize the limitations inherited from the western European choral music tradition and report on workable new remedies to counter those **Transforming Ethnohistories** Sebastian Felix Braun, 2013-08-26 Anthropologists need history to constraints understand how the past has shaped the present Historians need anthropology to help them interpret the past Where anthropologists and historians needs intersect is ethnohistory. The contributors to this volume have been inspired in large part by the teaching and writing of distinguished ethnohistorian Raymond J DeMallie whose exemplary combination of ethnographic and archival research demonstrates the ways anthropology and history can work together to create an understanding of the past and the present Transforming Ethnohistories comprises ten new avenues of ethnohistorical research ranging in topic from fiddling performances to environmental disturbance and spanning places from North Carolina

to the Yukon The authors seek to understand communities by finding and interpreting their stories in a variety of different texts some of which lie outside academic understanding and research methodology It is exactly those stories conventionally labeled myths or oral tradition that ethnohistorians demand we pay attention to Although historians cannot see or talk to their informants as anthropologists do both anthropologists and historians can listen to oral histories and written documents for the essential stories they contain The essays assembled here use DeMallie's approach to contribute to the history and anthropology of Native North America and address issues of literary criticism and contexts sociolinguistics performance theory identity and historical change historical and anthropological methods and theory and the interpretation of histories cultures and stories Debates over the legitimacy of ethnohistory as a specialization have led some scholars to declare its decline This volume shows ethnohistory to be alive and well and continuing to attract young scholars **German Literature** Robert Blankenship, 2017 The many fictional suicides in the literature of the German Democratic Republic have been greatly misunderstood The common assumption is that authoritarian oppression in East Germany led to an anomalous abundance of real suicides so that fictional suicides in GDR literature constitute a simple realistic reflection of East German society Robert Blankenship challenges this assumption by providing both a history of suicide in GDR literature and close readings of individual texts revealing that suicides in GDR literature rather than simply reflecting historical suicides contain rich literary attributes such as intertextuality haunting epistolarity and unorthodox narrative strategies Such literariness offered subversive potential beyond suggesting that real people killed themselves in a communist country This first book length study of fictional suicides in East German literature provides insight into the complex and dynamic rhetoric of the GDR Blankenship's underlying claim is that GDR literature ought to be read as literature with literary methodology not despite the country's politically and rhetorically charged nature but precisely because of it Suicide in East German Literature will be of interest to scholars of GDR literature humanities oriented scholars of suicide and those who are interested in the complex relationship between literature and history ROBERT BLANKENSHIP is Assistant Professor of German at California State University Long Beach Framing Sukkot Gabrielle Anna Berlinger, 2017-09-20 An important and timely study of the Jewish holiday s temporary shelters and the meaning of home Journal of Folklore Research The sukkah the symbolic ritual home built during the annual Jewish holiday of Sukkot commemorates the temporary structures that sheltered the Israelites as they journeyed across the desert after the exodus from Egypt Despite the simple Biblical prescription for its design the remarkable variety of creative expression in the construction decoration and use of the sukkah in both times of peace and national upheaval reveals the cultural traditions political convictions philosophical ideals and individual aspirations that the sukkah communicates for its builders and users today In this ethnography of contemporary Sukkot observance Gabrielle Anna Berlinger examines the powerful role of ritual and vernacular architecture in the formation of self and society in three sharply contrasting Jewish communities Bloomington Indiana South Tel Aviv Israel and Brooklyn New York Through vivid

description and in depth interviews she demonstrates how constructing and decorating the sukkah and performing the weeklong holiday s rituals of hospitality provide unique circumstances for creative expression social interaction and political struggle Through an exploration of the intersections between the rituals of Sukkot and contemporary issues such as the global Occupy movement Berlinger finds that the sukkah becomes a tangible expression of the need for housing and economic justice as well as a symbol of the longing for home Berlinger's rich and nuanced ethnography sheds light on many sukkot from Bloomington to Tel Aviv Jaffa and Jerusalem and back to Brooklyn like the wandering in the Sinai desert this journey is crucial Journal of American Folklore Body and Tradition in Nineteenth-Century France William G. Pooley, 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe Body and Tradition in Nineteenth Century France explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of F lix Arnaudin 1844 1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes are were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe

Bronner,2019 The Oxford Handbook of American Folklore and Folklife Studies surveys the materials approaches concepts and applications of the field to provide a sweeping guide to American folklore and folklife culture history and society Forty three comprehensive and diverse chapters explore the extraordinary richness of the American social and cultural fabric offering a valuable resource not only for scholars and students of American studies but also for the global study of tradition folk arts and cultural practice
