

THE FOUNDATIONS OF SCOTLAND is the first of a series of volumes devoted to the history of Scotland. It deals with the much neglected period from the beginnings of Scottish history to 1460 which saw the emergence of a Scottish nation.

In her General Preface to this series Dr Agnes Mure Mackenzie sets up her approach to her country's history in the following words:

"History is more than a study of things past. It is a study of the roots of the present, of the seeds of the future. No man can guide present or future who ignores it, and one major cause of Scotland's unhappy present is that, though her sense of the past is still keen and vivid, she recalls it only confusedly and in part. If she is to shape her future worthily, that past must be recalled and understood, not as a series of highly coloured stories but as a consecutive process of events."

The author's stature as a scholar is widely recognised and her skill as a writer capable of bringing to life the events of the past is abundantly demonstrated within this book.
