Foundations of Economics Shawn Ritenour,2010-01-01 Foundations of Economics A Christian View is an introduction to economics from an explicitly Christian perspective It maintains that there is no conflict between Christian doctrine and economic science properly understood Therefore Foundations of Economics has three goals to demonstrate that the foundations of economic laws are derived from a Christian understanding of nature and humanity to explain basic economic principles of the market economy and apply them to various economic problems such as poverty and economic development and to show the relationship between Christian ethics and economic policy Foundations of Economics A Christian View accomplishes these goals by rooting the fundamental principles of human action in the Christian doctrines of creation and humanity and integrating them with the Christian ethic of private property This volume explains the relevance of economics for fulfilling the cultural mandate set forth in the first two chapters of Genesis by demonstrating how economics can help us in our task to be fruitful and multiply and have dominion over the earth without spoiling creation starving to death or descending into a barbaric struggle for survival

features a selection of essays presented at the 2019 Conference of the Latin American Society for the History of Economic Thought edited by Felipe Almeida and Carlos Eduardo Suprinyak as well as a new general research essay by Daniel Kuehn an archival discovery by Katia Caldari and Luca Fiorito and a book review by John Hall Erasing the Invisible Hand Warren J. Samuels, 2011-09-12 This book examines the use principally in economics of the concept of the invisible hand centering on Adam Smith It interprets the concept as ideology knowledge and a linguistic phenomenon It shows how the principal Chicago School interpretation misperceives and distorts what Smith believed on the economic role of government The essays further show how Smith was silent as to his intended meaning using the term to set minds at rest how the claim that the invisible hand is the foundational concept of economics is repudiated by numerous leading economic theorists that several dozen identities given the invisible hand renders the term ambiguous and inconclusive that no such thing as an invisible hand exists and that calling something an invisible hand adds nothing to knowledge Finally the essays show that the leading doctrines purporting to claim an invisible hand for the case for capitalism cannot invoke the term but that other nonnormative invisible hand processes are still useful tools *China And The Crisis Of Marxism-leninism* Franz Michael, 2019-04-11 Is the failure of communism in China inevitable So argue the authors of China and the Crisis of Marxism Leninism who believe that Mao's programs were utopian fantasies that greatly aggravated the incurable flaws of the Stalinist order now eroding worldwide At the time of the death of Mao Zedong in 1976 China was in a state of disarray and the
