[The School of](#)

Spiritual Science Johannes Kühl, Bodo v Plato, 2010 In 1924 Rudolf Steiner established the School of Spiritual Science within the framework of the newly reestablished Anthroposophical Society This book represents a beginning attempt at describing the nature intent and methods of this pioneering school and its place in modern culture It describes the school s three prerequisites for membership and studies its connection with the Anthroposophical Society and the anthroposophic movement It also examines the role of its First Class in relation to Rudolf Steiner s original intentions and the responsibilities of its representatives The bulk of the book involves descriptions of the various sections in the School of Spiritual Science contributed by those who are currently their leaders These descriptions indicate how the school connects with daily work in various areas of life in keeping with an esotericism based on the idea that life and its depths can be confronted in the most energetic way Also featured is practical information including a description of the process for becoming a member and an appendix containing significant statements by Rudolf Steiner In keeping with the transparency that Steiner requested from the outset this book is suitable for anyone interested in the School of Spiritual Science

A History of the School of Spiritual Science Johannes Kiersch, 2006 The School of Spiritual Science and its individual sections was initiated by Rudolf Steiner at the Christmas Conference 1923 1924 His intention in his own words was to present the esoteric aspect It was to have three classes though only the First Class was instituted before Steiner s death in 1925 Recently the written records on which the teaching of the First Class is based have been published in both German and English which has given rise to a number of questions Consequently the council of the General Anthroposophical Society in Dornach Switzerland commissioned Johannes Kiersch to write a history of this unique organization The result is an overview of the First Class and its development from the early esotericism developed by Rudolf Steiner while still connected with the Theosophical Society to the period following World War II The author provides individual commentaries on the first mediators of the school including Lili Kolisko Harry Collison and Count Polzer Hoditz The book also presents some thirty seven original documents in an extensive appendix which features personal notes letters and speeches connected with the Esoteric School A History of the School of Spiritual Science presents a balanced history of the birth and development of the First Class and its struggles through the controversial splits and conflicts that followed Steiner s death As Kiersch states The aim has been above all to come as close as possible to the sources and offer historical material for individuals to form their own opinion

The School of Spiritual Science C. medicine agriculture education science and the arts and how they relate to contemporary society Also included are significant articles and lectures by Rudolf Steiner regarding his original intentions for the School and practical information on the process of becoming a member In keeping with the transparency that he called for The School of Spiritual Science is available to anyone who wants to explore the work of this invaluable cultural institution **Science and the Founding**

Science and Health with Key to the Scriptures Mary Baker Eddy, 2020-12-13 *Science and Health with Key to the Scriptures* is the most important work of Mary Baker Eddy founder of The Church of Christ Scientist Along with the Bible *Science and Health with Key to the Scriptures* is the central text of the Christian Science religion *Science and Health* encapsulates the teachings of Christian Science and Christian Scientists often call it their textbook Christian Science develops its theology and its healing method from these simple statements 1 God is All in all 2 God is good 3 God is Mind and God is infinite hence all is Mind The conclusions are that humans are all perfect spiritual ideas of the one divine Mind and manifest Spirit not a material body The five physical senses which take no account of Spirit are the origin of all false beliefs Adherents of Christian Science claim that sickness is just a belief not a property of matter Praying from this standpoint removes the belief and brings healing
