beyond a view of the therapist as an objective agent they generally do not provide a model for understanding the therapist s and for that matter the client s beliefs experiences and world view The contextual ecological feminist model explicated here articulates a means of examining the contextual and ecological elements of person s worlds The authors of this volume have nicely illustrated feminist therapy s key tenets to illuminate the multiple spheres of influence in clients lives to empower clients as well as ameliorate their distress to appreciate the linkages among sociostructural cultural and relational influences and to work for social justice in well drawn theoretical explanations and carefully detailed case examples that bring us to the cutting edge of contemporary feminist therapy Maryka Biaggio PhD Psychologist Consultant and Writer Portland Oregon

Kottler, 2008. Highly practical and student centered. *Applied Helping Skills: Transforming Lives* is an experiential text focusing on basic skills and core interventions. Although it has a consistent big picture perspective, this book emphasizes the role of counselors to make contact with their individual clients to help them feel understood and to clarify the major issues that trouble them. *Women and Leadership* Jean Lau Chin, Bernice Lott, Joy Rice, Janis Sanchez-Hucles, 2008-04-15. Over the past thirty years, the number of women assuming leadership roles has grown dramatically. This original and important book identifies the challenges faced by women in positions of leadership and discusses the intersection between theories of leadership and feminism. Examines models of feminist leadership, feminist influences on leadership styles and agendas, and the diversity of theoretical and ethnic perspectives of feminist leaders. Addresses how diverse women lead, how feminist principles contribute to leadership, the influence of ethnic groups, and the barriers that women face as leaders. Transforms existing models of leadership by incorporating gender issues. Looks to the future of feminist leadership and identifies what must be done to train and mentor the next generation of feminist leaders.

Counseling Diversity in Context Jason Brown, 2017-01-01. Divided into two parts, the book provides a structural understanding of the context in which cross cultural counseling takes place and a model informed by intersectional analysis to support counselors in playing a more activist role in helping to change that context. **Aftershock** Patrice Jones, 2007. Every day people who push against violence and injustice or pull for peace and freedom must face their own fears. Many activists also must struggle with aftershock, the physical and emotional reverberations of frightening, horrifying, or otherwise traumatizing experiences endured in the course of their activism. Jones explores the culture of trauma that people have created through our violent exploitation of the Earth, other animals, and one another. As long as we continue to perpetrate such violations, we will never fully heal our own traumatic injuries. This book therefore is for survivors of all kinds of trauma, for therapists who treat trauma, and for anyone who hopes to reduce the amount of terror in the world. From publisher description. **Feminist Perspectives on Eating Disorders** Patricia Fallon, Melanie A. Katzman, Susan C. Wooley, 1996-10-01. Advancing the literature on a critical topic, this important new work illuminates the relationship between the anguish of eating disorder sufferers and the problems of ordinary women. The book covers a wide variety of issues, from ways in which gender may predispose women to eating disorders to the widespread cultural concerns these problems symbolize. Throughout, the psychology of women is reflected in the concepts and methods described; there is an explicit

commitment to political and social equality for women and therapy is reevaluated based on an understanding of the needs of women patients and the potentially differing contributions of male and female therapists Providing valuable insights into the critical problem of eating disorders this book is essential reading for clinicians and researchers alike Also by examining many of the ways in which women are affected by and respond to society's gender politics the book may be used as a text in women's studies courses
