Cuatro Décadas Después Del Muralismo Kimberly Gallery, 1992      Ten Years That Shook the City Chris Carlsson, Lisa Ruth Elliott, 2011-06 The alliances programs and goals of a historic decade that continues to shape SF and the world      Exhibiting Mestizaje Karen Mary Davalos, 2001 In this authoritative study Davalos challenges the sometimes hidden sometimes blatant assumptions that underlie the practice of creating museum exhibits and asks what happens when people of Mexican American descent put themselves in command of the collection display and interpretation of their cultural products Advancing a Chicana feminist interpretation Davalos carefully explores both the history of nineteenth and twentieth century museum practices and the more recent phenomenon of physically locating Mestizo Chicano art within insider spaces such as ethnically or racially specific cultural institutions and alternative galleries Just as public museums instruct visitors about who does and who does not belong to a nation's cultural legacy Davalos makes clear that exhibitions in so called minority museums are likewise shaped by notions of difference and nationalism and by the politics of identity and race Davalos pays particular attention to museum and cultural centers in major Mexican diaspora communities including the Mexican Fine Arts Museum in Chicago and Galeria de la Raza in San Francisco Throughout she critically examines Chicano Mexican Mestizo and Mexican American subjectivities as they are expressed in curatorial decisions and practices in educational materials and catalog texts and in the performances and other public events that accompany museum exhibits That practice what Davalos calls exhibiting mestizaje produces complex representations of Mexican Americans Davalos's analysis shows clearly that the value of mestizaje and diaspora lies in their ability to create a cultural poetics from fluidity and conflict Davalos accomplishes the difficult task of discussing Chicano art as both aesthetic and political work She does not reduce artistic expression to political propaganda but neither does she examine aesthetic issues in isolation from the social processes that give them shape and meaning George Lipsitz Chair Ethnic Studies Department UC San Diego

figure after his death in 1930 Robert Winthrop Chanler Discovering the Fantastic is the first comprehensive examination in more than eighty years of an artist who straddled the divide between fine and decorative art defined notions of originality and authorship during the birth of American modernism and posthumously challenges twenty first century preservationists through his idiosyncratic techniques and unorthodox material choices Co published with Vizcaya Museum and Gardens which preserves Chanler s fantastic undersea mural on the swimming pool grotto ceiling of the historic estate the book includes essays that explore major commissions and conservation issues all illustrated with new color photography as well as a chronology and exhibition history making this the definitive study on an indelible American modernist
