Book Catalog of the Library and Information Services Division: Author-title-series indexes Environmental Science Information Center. Library and Information Services Division, 1977 *Computer Games I* David N.L. Levy, 2012-12-06 Computer Games I is the first volume in a two part compendium of papers covering the most important material available on the development of computer strategy games These selections range from discussions of mathematical analyses of games to more qualitative concerns of whether a computer game should follow human thought processes rather than a brute force approach to papers which will benefit readers trying to program their own games Contributions include selections from the major players in the development of computer games Claude Shannon whose work still forms the foundation of most contemporary chess programs Edward O Thorpe whose invention of the card counting method caused Las Vegas casinos to change their blackjack rules and Hans Berliner whose work has been fundamental to the development of backgammon and chess games New Technical Books New York Public Library, 1972 **Data Structures and Their Implementation** Robert J.
