Dark Assemblages Kay Pritchett,2015-10-22 This book examines strategies of transformation becomings image making and the phantasmagoric that figure in four stories and a novel by Gothic fiction writer Pilar Pedraza Spain 1951 While critics have long associated the Bildungsroman with Gothic fiction this study takes a close look at the developmental process itself the means by which a protagonist young or old might transcend a deprived status to achieve a complete sense of self Pedraza s works imply that regardless of the path followed a character s ability to think differently is crucial to progress The fixed image representative of an inflexible socially determined mindset arises as an obstacle to maturation In *D as de perros* for example a triangular arrangement of coins in a cigar box elucidates the connection between individual lives and the social order or assemblage Literary texts such as this one serve as collective assemblages of enunciation capable of exposing fixed images as powerful instruments of control *Tristes Ayes del guila Mejicana* discovers fixed images among the icons of Colonial Spain s *exequias reales* used in this case to territorialize the evolving identity of indigenous peoples The territory that Pedraza s fiction best illuminates is in reality the image When images remain fixed or territorialized they uncannily infect the assemblages over which they exert influence Placing emphasis on images that impact women Pedraza in *Anfiteatro* for example deconstructs cat woman which albeit a potentially subversive image in its early manifestations eventually ceases to empower the feminine lashing it rather to a burdensome stereotype

Territorialized the feminine must then break free from the image in order to discover representations more capable of illuminating present day challenges The phrase dark assemblages drawn from Deleuze and Guattari's *A Thousand Plateaus* gestures toward societal stagnation as a decisive factor in individual evolvement Gothic fiction represents an uneven landscape in that it tenders the possibility of a social critique yet equally well lends itself to the exclusion of specific identities and practices that society brands as anomalous Pedraza's Gothic fiction is indeed subversive in that it offers readers original perceptions of modern day people and the assemblages dark or otherwise to which they belong

Women Poets of Spain, 1860-1990 John Chapman Wilcox, 1997 This is the first volume in English or Spanish to analyze the work of the principal women poets of Modern Spain In it John Wilcox draws on recent feminist critical theory and shows how Spanish poetry by women is not just a modern phenomenon but an ignored tradition whose roots reach back to the very beginnings of poetry of the Iberian Peninsula

A Bilingual Anthology of Spanish Poetry Luis Ramos-García, 1997 This anthology proceeds chronologically with bilingual renditions of several poems by each of the 30 poets featured The translations reproduce the spirit of historical rupture the self deceptions of postmodern societies and testimony of what it means to be living in a post Franco era

Poetry Index Annual, 1992 Ilona Roth, Roth Publishing, Inc. Staff, Inc Staff Roth Publishing, Publishing Editorial Roth, 1993-05

Twentieth-century Spanish Poets Michael L. Perna, 1991 Contains alphabetically arranged entries that provide career biographies of twenty nine twentieth century Spanish poets each with a list of principal works and a bibliography

Nature's Colloquy with the Word Kay Pritchett, 2004 This goal allies her with poets from Spain's symbolist past who acknowledge the insufficiency of language yet pursue elusive meaning Canelo's poetry advances their struggle since through a method ecofeminist Carol Bigwood has called nonlinguistic silent presencing she is able to finesse an apparent fusion between nature and the word Jacket

Postmodern Studies, 1995

Postmodern Spain Antonio Sánchez, 2007 Postmodern Spain examines the cultural transformation experienced by Spanish society during the late 1980s and 1990s By looking at specific aspects of culture the representation of the human subject the past and the transformation of the city this book critically re assesses the validity of postmodernism in Spain Focusing on the novels written by Juan Goytisolo during this period this book examines the representation and development of the human subject and its identification with the marginalized other's It further analyses various representations of the Spanish Civil War challenging the prevalent view of post Franco Spain as suffering from amnesia and thereby vindicates postmodern historical representations as a valid dialogue with the past The third chapter examines Barcelona's urban redevelopment analysing the transformation effected in some of its popular sites as a postmodern re formulation of the city as a fluid flexible public space Finally it brings its previous findings to bear on an analysis of the Barcelona 1992 Olympic Games It argues that these celebrations constituted a performance of Spain's new cultural identity designed for global national and local consumption Thus these cultural celebrations corroborated the emergence of postmodernism as a cultural dominant which has exceeded

modern and pre modern cultural practices while paradoxically containing and enhancing both Four Centuries of Dutch-American Relations Hans Krabbendam, Cornelis A. van Minnen, Giles Scott-Smith, 2009-09-09 Since Henry Hudson landed on Manhattan in 1609 the peoples of the Netherlands and North America have been inextricably linked Four Centuries of Dutch American Relations written by a team of nearly one hundred Dutch and American scholars is the first book to offer a comprehensive history of this bilateral relationship This volume covers the main paths of contacts conflicts and common plans from the first exploratory contacts in the early seventeenth century to the intense and multifaceted exchanges in the early twenty first Based on the most up to date research Four Centuries of Dutch American Relations will be for years to come a valuable and much used reference work for anyone interested in the history and culture of the United States and the Netherlands and the larger transatlantic interdependent framework in which they are embedded

Whitaker's Book List ,1991 *Translation East and West* Cornelia Niekus Moore, Lucy Lower, 1992 **Literary Magazine Review** ,1992 *Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry* J. Agustín Pastén B., 2020-12 *Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry* examines the ways in which Bolaño employs a type of literary aesthetics that subverts traits traditionally associated with postmodernism Pastén B coins these aesthetics postmodernism of resistance and argues that this resistance stands in direct opposition to critical discourses that construe the presence of hopeless characters and marginal settings in Bolaño's works as signs of the writer's disillusionment with the political as a consequence of the defeat of the Left in Latin America Rather he contends Bolaño creates a fictional world comprised of characters and situations that paradoxically refuse to accept defeat even while displaying the scars of terrible historical events In this work Pastén B challenges some critical assumptions about Bolaño's fiction and poetry that led to decontextualized interpretations of his work and offers a singularly comprehensive investigation that synthesizes multiple perspectives of a complicated author into one text *The Writers Directory* ,2013 *The Georgia Review* ,1991
