## Four Trips To Antiquity:

*Four Trips to Antiquity* Everett Gee Jackson, 1991      Winckelmann and the Invention of Antiquity Katherine Harloe, 2013-08-29 This volume provides a new perspective on the emergence of the modern study of antiquity Altertumswissenschaft in eighteenth century Germany through an exploration of debates that arose over the work of the art historian Johann Joachim Winckelmann between his death in 1768 and the end of the century Winckelmann's eloquent articulation of the cultural and aesthetic value of studying the ancient Greeks his adumbration of a new method for studying ancient artworks and his provision of a model of cultural historical development in terms of a succession of period styles influenced both the public and intra disciplinary self image of classics long into the twentieth century Yet this area of Winckelmann's Nachleben has received relatively little attention compared with the proliferation of studies concerning his importance for late eighteenth century German art and literature for historians of sexuality and his traditional status as a founder figure within the academic disciplines of classical archaeology and the history of art Harloe restores the figure of Winckelmann to classicists understanding of the history of their own discipline and uses debates between important figures such as Christian Gottlob Heyne Friedrich August Wolf and Johann Gottfried Herder to cast fresh light upon the emergence of the modern paradigm of classics as Altertumswissenschaft the multi disciplinary comprehensive and historicizing study of the ancient world      **Hardy's Tourists'guide Through Ireland, in Four Tours, Etc** Philip Dixon HARDY, 1861      Four Trips to Antiquity , 1991      Walking Tours of Ancient Rome: A Secular Guidebook to the Eternal City (Mercury Guides) Gary M. Devore, 2008-04-12 This guidebook is designed for tourists and scholars who are interested in exploring first hand the grandeur and magnificence that was ancient Rome through a Humanist secular and freethinking lens Twelve walking tours are designed around districts of the city Two appendices also describe day trips that are possible from the city center the ruins of Rome's port city of Ostia and the remains of the emperor Hadrian's splendid villa at Tivoli      *Letter and Report on the Discoveries at Herculaneum* Johann Joachim Winckelmann, 2011 This new translation brings to light the early days of scientific archaeology and the unearthing and study of Herculaneum and Pompeii as observed by the erudite and acerbic art historian Johann Joachim Winckelmann 1717-1768 His Letter published in German in 1762 displays his extensive knowledge of geology ancient literature and art while offering a scathing critique of the Spanish Bourbon excavations around the Bay of Naples and of the officials involved He further discusses these topics in his equally controversial Report of 1764 The introduction describes the context in which these texts were written identifies various politicians academics and collectors and elucidates topics of particular interest to Winckelmann from artifacts to local customs to the contents of ancient papyri The illustrations particularly those from the Bourbon publication *Le Antichit  di Ercolano* 1757-92 illuminate how these monuments influenced contemporary perception of the ancient world      *A Classical Tour Through Italy ... Fourth Edition, ... Illustrated with a Map of Italy, Plans, Etc* John Chetwode EUSTACE, 1818      *Jewish Travel in Antiquity* Catherine

Hezser,2011 This book provides the first comprehensive study of Jewish travel and mobility in Hellenistic and Roman times based on a critical analysis of Jewish Graeco Roman and early Christian literary epigraphic and archaeological sources and a social historical evaluation of the material Catherine Hezser shows that certain segments of ancient Jewish society were quite mobile Mobility seems to have increased in the later Roman period when an extensive road system facilitated travel within the province of Syria Palestine and the neighbouring Middle Eastern regions Second Temple Judaism was centralized with Jerusalem as its central space and seat of priestly authority In post 70 rabbinic Judaism on the other hand connections between rabbis could be established through mutual visits and second and third degree contacts only Mobility formed the basis of the establishment of a decentralized rabbinic network in Palestine and Babylonia in late antiquity Numerous narrative and halakhic traditions indicate the importance of mobility for communication and the exchange of knowledge amongst rabbis It is argued that the rabbis who were most mobile sat at the nodal points of the rabbinic network and elicited the largest amount of influence They would have combined business travel with scholarly exchange Scholars journeys between Palestine and Babylonia are viewed within the wider context of Rome and Persia s economic and cultural exchange in which Jews just like Christians may have played the role of intermediaries

**The Mediterranean Diaspora in Late Antiquity** Ross Shepard Kraemer,2020 The Mediterranean Diaspora in Late Antiquity examines the fate of Jews living in the Mediterranean Jewish diaspora after the Roman emperor Constantine threw his patronage to the emerging orthodox Nicene Christian churches By the fifth century much of the rich material evidence for Greek and Latin speaking Jews in the diaspora diminishes sharply Ross Shepard Kraemer argues that this increasing absence of evidence is evidence of increasing absence of Jews themselves Literary sources late antique Roman laws and archaeological remains illuminate how Christian bishops and emperors used a variety of tactics to coerce Jews into conversion violence threats of violence deprivation of various legal rights exclusion from imperial employment and others Unlike other non orthodox Christians Jews who resisted conversion were reluctantly tolerated perhaps because of beliefs that Christ s return required their conversion In response to these pressures Jews leveraged political and social networks for legal protection retaliated with their own acts of violence and sometimes became Christians Some may have emigrated to regions where imperial laws were more laxly enforced or which were under control of non orthodox Arian Christians Increasingly they embraced forms of Jewish practice that constructed tighter social boundaries around them The Mediterranean Diaspora in Late Antiquity concludes that by the beginning of the seventh century the orthodox Christianization of the Roman Empire had cost diaspora Jews and all non orthodox persons including Christians dearly

ASMOSIA 4 Association for the Study of Marble and Other Stones used in Antiquity. International Symposium,1999 **Travel, Pilgrimage and Social Interaction from Antiquity to the Middle Ages** Jenni Kuuliala,Jussi Rantala,2019-10-10 Mobility and travel have always been key characteristics of human societies having various cultural social and religious aims and purposes Travels shaped religions and societies and were a way for people to

understand themselves this world and the transcendent This book analyses travelling in its social context in ancient and medieval societies Why did people travel how did they travel and what kind of communal networks and negotiations were inherent in their travels Travel was not only the privilege of the wealthy or the male but people from all social groups genders and physical abilities travelled Their reasons to travel varied from profane to sacred but often these two were intermingled in the reasons for travelling The chapters cover a long chronology from Antiquity to the end of the Middle Ages offering the reader insights into the developments and continuities of travel and pilgrimage as a phenomenon of vital importance

Food Provisions for Ancient Rome Paul James,2020-11-29 This book defines the processes used for delivering a range of food items to the city of Rome and its hinterland from the first century AD using modern supply chain modelling techniques The subject matter delves into the wider supply of goods such as wood and building products to add further perspective to the breadth of the system managed by the Roman administration to ensure supply and political stability It assesses the impact of strategic changes such as the introduction of water powered milling technology and restructuring of the annona in this period as well as administrative reforms Evidence from ancient sources both literary and epigraphic along with relevant archaeological comparative evidence is used to develop a detailed supply model including the mapping of warehouse management systems port and river traffic co ordination quality control mechanisms and administrative structures Unlike other contemporary studies this model takes into consideration supply chain losses to correct the erroneous assumption that supply is equal to consumption A product flow map from the source of supply to the consumer details the labour equipment and infrastructure required at each stage painting a graphic picture of just what an achievement it was for the administration to have maintained such a complex system over this long time period Food Provisions for Ancient Rome provides an in depth exploration of this topic that will be of interest to anyone working on the city of Rome under the empire as well as those interested in imperial administration and logistics

**A Tour Through the Whole Island of Great Britain** Daniel Defoe,2005-08-25 Britain in the early eighteenth century an introduction that is both informative and imaginative reliable and entertaining To the tradition of travel writing Daniel Defoe brings a lifetime s experience as a businessman soldier economic journalist and spy and his Tour 1724 6 is an invaluable source of social and economic history But this book is far more than a beautifully written guide to Britain just before the industrial revolution for Defoe possessed a wild inventive streak that endows his work with astonishing energy and tension and the Tour is his deeply imaginative response to a brave new economic world By employing his skills as a chronicler a polemicist and a creative writer keenly sensitive to the depredations of time Defoe more than achieves his aim of rendering the present state of Britain

**of the City of Buffalo** Young Men's Association of the City of Buffalo. Library, 1871      The Educated Subject and the German Concept of Bildung Rebekka Horlacher, 2015-11-06 German education plays a huge role in the development of education sciences and modern universities internationally It is influenced by the educational concept of Bildung which defines Germany's theoretical and curricular ventures This concept is famously untranslatable into other languages and is often misinterpreted as education instruction training upbringing and other terms which don't encompass its cultural ambitions Despite this hurdle Bildung is now being recognized in current discussions of education issues such as standardization teaching to the test evidence based policy and high stakes testing This volume clears up the confusion and misunderstandings surrounding Bildung by examining the origins of the concept and how it has been applied throughout history It paves the way for educators to fully understand and benefit from this model and all it has to offer      **The Classical Tradition** Anthony Grafton, Glenn W. Most, Salvatore Settis, 2010-10-25 A vast cabinet of curiosities Stephen Greenblatt Eclectic rather than exhaustive less an encyclopedia than a buffet Frederic Raphael Literary Review How do we get from the polis to the police Or from Odysseus's sirens to those of an ambulance The legacy of ancient Greece and Rome is all around us imitated resisted reworked and misunderstood In this beautifully illustrated and encyclopedic compendium a team of leading scholars investigates the afterlife of this rich heritage in the fields of literature philosophy art architecture history politics religion and science From Academy to Zoology Aristotle and the Argonauts to Pegasus and Persia The Classical Tradition looks at facts and adages people places and ideas to reveal how the Classical tradition has shaped human endeavors from government to medicine drama to urban planning legal theory to popular culture At once authoritative and accessible learned and entertaining it illuminates the vitality of these enduring influences      **Africa in Europe: Antiquity into the Age of Global Exploration** Stefan Goodwin, 1955-01-01 Africa in Europe in two volumes meticulously documents Europe's African presence from antiquity to the present It incorporates findings from areas of study as diverse as physical anthropology linguistics social history social theory international relations migrational studies and globalization In contrast to most other works focusing on Eurafrican relationships that largely revolve around Atlantic and trans Atlantic developments since the Age of Global Exploration this work has a much broader perspective which takes account of human evolution the history of religion Judaic studies Byzantine studies the history of Islam and Western intellectual history including social theory While the issue of racism in its variant manifestations receives thorough treatment African in Europe is also about human connections across fluid boundaries that are ancient as well as those that date to the Age of Exploration the Age of Revolution and continue until the present Hence it brings new clarity to our understanding of such processes as acculturation and assimilation while deepening our understanding of interrelationships among racism violence and social identities This work is full of new insights fresh interpretations and highly nuanced analyses relevant to our thinking about territoriality citizenship migration and frontiers in a world that is increasingly globalized The author moves across

boundaries of time and space in ways that result in an encyclopedic work that is an integrated and programmatic whole as well as one in which each chapter is a complete module of scholarship that is self contained
