Brandon, Martin Banham, 1997-01-28 A comprehensive and authoritative single volume reference work on the theatre arts of Asia Oceania Nine expert scholars provide entries on performance in twenty countries from Pakistan in the west through India and Southeast Asia to China Japan and Korea in the east An introductory pan Asian essay explores basic themes they include ritual dance puppetry training performance and masks The national entries concentrate on the historical development of theatre in each country followed by entries on the major theatre forms and articles on playwrights actors and directors The entries are accompanied by rare photographs and helpful reading lists *Translating Chinese Literature* Eugene Chen Eoyang, Yaofu Lin, 1995 Enth Papers presented at the first International conference on the translation of Chinese literature held in Taipei Nov 19 21 1990 *Paradoxes of Traditional Chinese Literature* Eva Hung, 1994 This book is a collection of nine articles on various paradoxical aspects of traditional Chinese literature The literary works chosen for analysis range from the Tang dynasty to the late Qing Besides providing new approaches to the well known classic authors such as Honglou Meng Jin Ping Mei Xixiang ji and Liaozhai zhiyi there are also detailed analysis of such diverse works as Liu Zongyuan's fiction analogues of the Liu Yi story lesser known versions of the play White Rabbit as well as a number of late Qing fictions Contributors to this volume include some of the most respected names in sinology today Shakespeare in Hollywood, Asia, and Cyberspace Alexander Cheng-Yuan Huang, Charles Stanley Ross, 2009 Shakespeare in Hollywood Asia and Cyberspace shows readers how ideas of Asia operate in Shakespeare performances and

how Asian and Anglo European forms of cultural production combine to transcend the mode of inquiry that focuses on fidelity. The result is a new creativity that finds expression in different cultural and virtual locations including recent films and massively multiplayer online games such as *Arden The World of Shakespeare*. The papers in this volume provide a background for these modern developments showing the history of how Shakespeare became a signifier against which Asian and Western cultures defined and continue to define themselves. Hollywood films and a century of Asian readings of plays such as *Hamlet* and *Macbeth* are now conjoining in cyberspace making a world of difference in how we experience Shakespeare. The papers written by experts in the field provide an introduction to the diverse incarnations and bold sequences of screen and stage that in recent decades have produced new versions of Shakespeare's great comedies and tragedies and new ways of experiencing them. Authors in the first part of the collection examine body politics and race in Hollywood Shakespearean films and film techniques. It complements the second part of the book in which the history of Shakespearean readings and stagings in China, Indonesia, Cambodia, Japan, Okinawa, Taiwan, Malaya, Korea, and Hong Kong are discussed. Papers in the third part of the volume contain analyses of the transformation of the idea of Shakespeare in cyberspace, a rapidly expanding world of new rewritings of both Shakespeare and Asia. Together the three sections of this comparative study show how Asian cultures and Shakespeare affect each other, how one culture is translated to another.

The Bloomsbury Handbook of Modern Chinese Literature in Translation Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective, this handbook provides students, researchers, and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works. Translation matters. It always has, of course, but more so when we want to reap the benefits of intercultural communication. In many universities, Chinese literature in English translation is taught as if it had been written in English. As a result, students submit what they read to their own cultural expectations; they do not read in translation and do not attend to the protocols of knowing, engagements, and contestations that bind literature and society to each other. The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack. Organised in a tripartite structure around considerations of textual, social, and large-scale spatial and historical circumstances, its thirty-plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works. In doing so, it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation, offering in-depth studies about eminent Chinese authors and their literary masterpieces in translation. The first of its kind, this book is essential reading for anyone studying or researching Chinese literature in translation.
