Blackie, 1972 [Four Phases of Morals](#) John Stuart Blackie, 2015-06-24 Excerpt from *Four Phases of Morals Socrates Aristotle Christianity Utilitarianism* As by the arrangements of the season 1869 of which my course formed a part the number of Lectures was limited to four and as I determined to treat the subject in the concrete historically rather than in the form of abstract discussion it necessarily happened that the four phases of morals to which I specially

directed attention viewed in reference to the whole system of ethical doctrine presented an incomplete and fragmentary aspect I endeavoured however under these limitations to bring forward those historical manifestations of moral truth which both afforded a ready occasion for discussing some of the most fundamental questions of Ethics and from historical and local considerations were most fitted to be presented to a British audience at the present day At the same time there runs through the four discourses a unity of thought and tendency beyond what the title indicates and which those who are competent to judge will easily recognise About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
