Rupert Brooke, Charles Sorley, Isaac Rosenberg, and Wilfred Owen Lorna Hardwick,Stephen Harrison,Elizabeth Vandiver,2024-07-23 Rupert Brooke Wilfred Owen Isaac Rosenberg and Charles Sorley all died in the First Word War They came from diverse social educational and cultural backgrounds but for all of the writers engagement with Greek and Roman antiquity was decisive in shaping their war poetry The world views and cultural hinterlands of Brooke and Sorley were framed by the Greek and Latin texts they had studied at school whereas for Owen who struggled with Latin classical texts were a part of his aspirational literary imagination Rosenberg s education was limited but he encountered some Greek and Roman literature through translations and through mediations in English literature The various ways in which the poets

engaged with classical literature are analysed in the commentaries which are designed to be accessible to classicists and to users from other subject areas The extensive range of connections made by the poets and by subsequent readers is explained in the Introduction to the volume The commentaries illuminate relationships between the poems and attitudes to the war at the time in the immediate post war years and subsequently They also probe how individual poems reveal various facets of the poetry of unease the poetry of survival and the poetics of war and ecology References to the accompanying online Oxford Classical Reception Commentaries will enable readers to follow up their special interests This volume differs from the shorter volume Greek and Roman Antiquity in First World War Poetry Making Connections in that it covers the whole output of the four poets and not just their war poems [A Guide to Ezra Pound's Personae \(1926\)](#) K. K. Ruthven, 2024-03-29 Both a commentary on and a critical appreciation of the work of the early Pound It starts off with a lucid introduction to Pound's technique in general and to his imagist phase during which the poems commented on in this book were written in particular In the critical passages Mr Ruthven steers a sage middle course between the attitudes of uncritical adoration and wholesale rejection that mar so much of the literature on Pound informative without being pedantic and exhaustive without being long-winded To turn to Mr Ruthven's Guide is to follow in the footsteps of an intelligent sensitive and reliable scholar English Studies This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer-reviewed scholarship accessible once again using print-on-demand technology This title was originally published in 1969 **Ruth Gipps** Jill Halstead, 2017-07-05 When Ruth Gipps died in 1999 her legacy was as one of Britain's most prolific female composers Her creative output spanned some seventy years and includes symphonies tone poems concertos string quartets and various large-scale choral and chamber works Not content with her creative activities her boundless energy fuelled her other roles as conductor concert pianist orchestral musician and pedagogue Her many talents were acknowledged but not always respected and she was a figure often dogged by controversy She gained a reputation for being uncompromising both personally and musically a reputation that was ultimately to leave her isolated In the first major review of her life and work the importance of Ruth Gipps is established in two ways first as a pioneering woman composer and conductor whose work challenged prevailing attitudes in the era directly after the war and second as a composer whose musical philosophy was often at odds with mainstream thinking Although she was branded a reactionary her position reveals a number of important counter-currents in English musical life in the twentieth century The first section of the book documents her formative years her life as child prodigy the disruption and opportunities offered by war the dramatic end of her career as a concert pianist and her subsequent entry into the world of conducting The influence of key figures such as Vaughan Williams Arthur Bliss Malcolm Arnold and George Weldon is explored as is Gipps's habitually thorny relationship with a range of musical institutions including the BBC and the City of Birmingham Symphony Orchestra In the

second part of the book her compositional output is reviewed Works are explored via the guiding themes of her creative agenda namely anti modernism and Englishness The book closes with an analysis of a group of works which all have gendered narratives or readings As Gipps regularly used personal experience as the basis for such musical narr The Monthly Musical Record ,1921 **A Guide to Ezra Pound's Personae** K.
