Catalogue American Mathematical Society, 2000 Topics in Interpolation Theory Bernd Fritzsche, Victor Katsnelson, Bernd Kirstein, 2012-12-06 About one half of the papers in this volume are based on

lectures which were presented at a conference at Leipzig University in August 1994 which was dedicated to Vladimir Petrovich Potapov. He would have been eighty years old. These have been supplemented by 1 Historical material based on reminiscences of former colleagues, students and associates of V. P. Potapov. 2 Translations of a number of important papers which serve to clarify the Potapov approach to problems of interpolation and extension as well as a number of related problems and methods and are relatively unknown in the West. 3 Two expository papers which have been especially written for this volume. For purposes of discussion it is convenient to group the technical papers in this volume into six categories. We will now run through them lightly, first listing the major theme, then in parentheses the authors of the relevant papers followed by discussion. Some supplementary references are listed at the end.

OT72 which appears frequently in this volume refers to Volume 72 in the series *Operator Theory: Advances and Applications*. It was dedicated to V. P. Potapov.

1 Multiplicative decompositions. Yu. P. Ginzburg, M. S. Livsic, I. V. Mikhailova, V. I. Smirnov. *The Collected Papers of Bertrand Russell, Volume 5*. Bertrand Russell, 2015-07-17. This volume of Bertrand Russell's *Collected Papers* finds Russell focused on writing *Principia Mathematica* during 1905-08. Eight previously unpublished papers shed light on his different versions of a substitutional theory of logic with its elimination of classes and relations during 1905-06. A recurring issue for him was whether a type hierarchy had to be part of a substitutional theory. In mid-1907 he began writing up the final version of *Principia*, now using a ramified theory of types, and eleven unpublished drafts from 1907-08 deal with this. Numerous letters show his thoughts on the process. The volume's 80-page introduction covers the evolution of his logic from 1896 until 1909 when volume I of *Principia* went to the printer. *The Collected Papers of Bertrand Russell, Volume 4*. Alasdair Urquhart, Albert C. Lewis, 2024-12-20. This volume covers the period from the beginning of Whitehead and Russell's work on Volume 2 of the *Principles of Mathematics* to the critical discovery of the theory of descriptions in 1905. The volume contains a large number of unpublished manuscripts which give a vivid picture of Russell wrestling with the logical paradoxes, often unsuccessfully, as he tries out one foundational scheme after another. Previously unpublished work in the theory of denoting is included which predates the famous article of 1905. This volume also gathers together several manuscripts on the so-called zig-zag theory with which Russell attempted to provide a type-free foundation for mathematics. A number of reviews and survey articles together with two talks on modality and truth are also published for the first time. *Byzantium - Rus - Russia*. Simon Franklin, 2024-10-28. The Christian culture of Rus, the medieval precursor of modern Russia, Ukraine and Belarus is sometimes presented either as a reflection of an indigenous spirituality wrapped in borrowed Byzantine forms or by contrast as merely a provincial version of its Byzantine original. The essays in this volume start from the premise that neither view is adequate. The history of culture, even of a self-consciously imitative culture, involves a continual process of inevitable mistranslation as the imported models are reshaped and reinterpreted according to local resources, circumstances and preconceptions. These essays explore aspects of the translation of culture on several levels, from the semantic processes of the actual translation of

written texts from Greek into Slavonic through to larger issues of ideology and identity They consider both the initial stages of such translation from Byzantium to Rus and some of the subsequent retranslations of the Byzantine heritage in the culture of Rus and eventually of Russia *The Wellesley Index to Victorian Periodicals 1824-1900* Walter Edwards
