Fourteen Fraught Fables and One Debatable Day Merritt Abrash, 2011-04-15 As suggested by the title *Fourteen Fraught Fables and One Debatable Day* this book is composed of two independent parts The fourteen fables are brief subjective tales some which might be called surreal others simply fantastic but all of them bizarre products of a rare imagination They take place in a world which seems at first very like our own but which by the end of each has altered into something disconcertingly unexpected A characteristic example through sheer will power the narrator rides his exercise bicycle off its stand and into realms he had never dreamt of The longer work *One Debatable Day* tells of the humorously narrated quest by Valentine every much of an Everyman in his virtues and shortcomings to find out what the particular day of the story should be about This proves more difficult than he or the reader might have thought since Valentine's commitment to simple honesty and his respect for sincerity in relationships are shared by few of the wide range of people he encounters Not until he has shaken himself free from exaggerated aestheticism political hypocrisy and self serving religious formulations does he finally gain insight into what the day should be about aided by a presumed guardian angel and a movie buff cavalry horse His search is fulfilled in extended episodes of original humor both high and low playing out against the background of the desire of every human being to understand how each of one's days ought to be lived

nineteenth and twentieth centuries A Token of My Affection shows in fascinating detail how the evolution of the greeting card reveals the fundamental power of economic organization to enable and constrain experiences of longing status desire social connectedness and love and to structure and partially determine the most private internal and intimate of feelings Beautifully illustrated A Token of My Affection follows the development of the modern greeting card industry from the 1840s as a way of recovering that most elusive of things the emotional subjectivity of another age Barry Shank charts the evolution of the greeting card from an afterthought to a traditional printing and stationery business in the mid nineteenth century to a multibillion dollar industry a hundred years later He explains what an industry devoted to emotional sincerity means for the lives of all Americans Blending archival research in business history with a study of surviving artifacts and a literary analysis of a broad range of relevant texts and primary sources Shank demonstrates the power of business to affect love and the ability of love to find its way in the marketplace of consumer society *Paperbound Books in Print* ,1992 Valentine's Manual of Old New York Henry Collins Brown,1926 **My Bloody Valentine's Loveless** Mike McGonigal,2007-01-10 Loveless remains an enigma 15 years after its release an album so influential and groundbreaking that its chief creator Kevin Shields has been unable or unwilling to release an official follow up In his book Mike McGonigal talks to all the members of My Bloody Valentine in an almost certainly futile attempt to get at the essence of this extraordinary record
