particularly instructive point of focus Several of the company's most famous ad campaigns are prime examples of the practice of redaction whereby marketers select censor and restructure musical texts to fit commercial contexts in ways that revise their aesthetic meanings and serve corporate aims Ultimately Love demonstrates how Pepsi's marketing has historically appropriated and altered images of pop icons and the meanings of hit songs and how these commercials shaped relationships between the American music business the advertising industry and corporate brands Soda Goes Pop is a rich resource for scholars and students of American studies popular culture advertising broadcast media and musicology It is also an accessible and informative book for the general reader as Love's musical and theoretical analyses are clearly presented for non specialist audiences and readers with varying degrees of musical knowledge
