Fra Angelico The Annunciation:

The Annunciation Fra Angelico, Federico Castelli Gattinara, 2006 Fra Angelico's magnificent painting of the Annunciation to the Virgin can be seen today at the San Marco Museum in Florence Italy. A beautiful reproduction of the memorable Italian Renaissance painting is presented and described in this attractive miniature book which does double duty as a framed picture. The front cover shows the painting in a faithful miniaturized full color reproduction and the book's extra sturdy slipcase is designed so it can be used as a picture frame. The slipcase can be stood up on a desk or tabletop with a pull out tab to present a framed picture. A second tab serves for those who prefer to use their Miniature Art Book as a wall hanging. But taken out of its slipcase the book features 21 pages of color illustrated text on glossy card stock. The artist's life and work is discussed with attention to significant features in the title painting. The book's last two pages present a capsule timeline biography of the artist and his works.

Images and Identity in Fifteenth-century Florence Patricia Lee Rubin, 2007-01-01 An exploration of ways of looking in Renaissance Florence where works of art were part of a complex process of social exchange. Renaissance Florence of endless fascination for the beauty of its art and architecture is no less intriguing for its dynamic political economic and social life. In this book Patricia Lee Rubin crosses the boundaries of all these areas to arrive at an original and comprehensive view of the place of images in Florentine society. The author asks an array of questions: Why were works of art made? Who were the artists who made them and who commissioned them? How did they look and how were they looked at? She demonstrates that the answers to such questions illuminate the contexts in which works of art were created and how they were valued and viewed. Rubin seeks out the meeting places of meaning in churches in palaces in piazzas places of exchange where identities were taken on and transformed often with the mediation of images. She concentrates on questions of vision and visuality on seeing and being seen. With a blend of exceptional illustrations close analyses of sacred and secular paintings by artists including Fra Angelico Fra Filippo Lippi Filippino Lippi and Botticelli and wide ranging bibliographic essays the book shines new light on fifteenth century Florence a special place that made beauty one of its defining features.

Men Who Have Walked With God - Being The Story Of Mysticism Through The Ages Told In The Biographies Of Representative Seers And Saints With Excerpts From Their Writings And Sayings

Sheldon Cheney, 2013-05-31 Sheldon Warren Cheney was an American author and art critic born in Berkeley California. Cheney was one of the most significant pro modernist theatre and art critics of the early twentieth century. He helped introduce European modernist practices in theatre to the United States. *Men Who Have Walked with God* traces mysticism through history concentrating on eleven men from Lao Tse and the Buddha to Jacob Boehme and William Blake. This is a book about certain artists and poets and spiritual prophets who have been close to God in the special mystic way. They have known the experience of union with God. The writers and artists among them have believed in some cases that their writings and pictures were composed as if by divine dictation or they have thought of art as a special mode of revelation of the rhythm or

Encountering Transcendence Lieven Boeve, Hans Geybels, Stijn Van den Bossche, 2005 This volume consists of several contributions to a refined understanding of religious experience in view of contemporary theological epistemology Diverse sample studies taken from the extensive field of religion theology and religious studies reveal that religious experience is today clearly a pivotal issue More specifically this is made evident in modern theological hermeneutics and in the anti modern and or post modern reactions thereto the theology of world religions and inter religious dialogue the contemporary resurgence of religiosity in Western society and culture and the so called turn to religion in contemporary continental philosophy It would appear from such studies that the category of religious experience is frequently called upon to clarify or explain the phenomenon of religion and religiosity on the one hand and to support and legitimise religious positions or the critique thereof on the other Because of the loss of plausibility of tradition bound religiosity and of foundational so called onto theological schemes religious experience has come to constitute for many the last or latest point of departure and anchor for religion and religious thinking This is certainly the case with respect to tendencies within contemporary Christian traditions and theological reflection In a multitude of ways and from a variety of different perspectives religious experience and experience of transcendence or of the divine have gained a prominent place in philosophical and fundamental theological conceptual schemes In reaction to this other authors have denied the very primacy given to religious experience in reflecting upon faith pointing to the constitutive role of tradition and narrative without which there is no religious experience From all this follows that the category of religious experience is in great need of reconceptualisation not least from a theological point of view On the one hand religious experience is all too easily called upon to legitimise religious claims often against tradition and on the other hand the category has become misleading in so far as it is tainted by the modern scientific understanding of experience in reaction to which tradition is then easily invoked to protect the core of religion Both young scholars at the preceding junior conference and senior scholars during the conference's paper sessions presented from diverse perspectives new ways to conceive of religious experience in view of today's challenges of secularisation religious plurality the aestheticisation of religion etc The selected contributions have been arranged in four thematically oriented parts Approaching Religious Experience in a Postmodern Age Modern re Thinking of Religious Experience Liberating Religious Experience and Challenges for Spirituality

Metcalfe, Ann Game, 2002 This remarkable book takes a fresh look at life as a process not an end encouraging readers to look for the meaning of life not in terms of achievement or others opinions but in the everyday joys of living From the Preface It is easy to become attached to goals Goals promise certainty and the anxiety they induce only makes their achievement seem more meritorious The trouble is that goals even worthy ones remove our sense of proportion and our sensitivity to what is happening around us It sometimes takes a fall to bring us back into the present Where have I been What have I been doing all my life We awaken to the world as if for the first time We have written this book out of an increasing sense of the importance of these moments Once you recognise life as a gift rather than an achievement you realise that meaning in life is found only in the vitality of the social relations in which we participate **CATALOGUE OF WORKS ON THE FINE ARTS** ,1869 *Olivier Messiaen* Nigel Simeone, 2017-07-05 When Olivier Messiaen died in 1992 the prevailing image was of a man apart a deeply religious man whose only sources of inspiration were God and Nature and a composer whose music progressed along an entirely individual path artistically impervious to contemporaneous events and the whims both of his contemporaries and the critics Whilst such a view contains a large element of truth the past ten years has seen an explosion of interest in the composer and the work of a diverse range of scholars has painted a much richer more complex picture of Messiaen This volume presents some of the fruits of this research for the first time concentrating on three broad interrelated areas Messiaen's relationship with fellow artists key developments in the composer's musical language and technique and his influences both sacred and secular The volume assesses Messiaen's position as a creative artist of the twentieth century in the light of the latest research In the process it identifies some of the key myths confusions and exaggerations surrounding the composer which often mask equally remarkable truths In attempting to reveal some of those truths the essays elucidate a little of the mystery surrounding Messiaen as a man an artist a believer and a musician
