Dickens and the Politics of the Family Catherine Waters, 1997-07-03 The fictional representation of the family has long been regarded as a Dickensian speciality But while nineteenth century reviewers praised Dickens as the pre eminent novelist of the family any close examination of his novels reveals a remarkable disjunction between his image as the quintessential celebrant of the hearth and his interest in fractured families Catherine Waters offers an explanation of this discrepancy through an examination of Dickens's representation of the family in relation to nineteenth century constructions of class and gender Drawing upon feminist and new historicist methodologies and focusing upon the normalising function of middle class domestic ideology Waters concludes that Dickens's novels record a shift in notions of the

family away from an earlier stress upon the importance of lineage and blood towards a new ideal of domesticity assumed to be the natural form of the family

Goethe's Families of the Heart Susan E. Gustafson, 2016-06-30 Throughout his literary work Goethe portrays characters who defy and reject 18th and 19th century ideals of aristocratic and civil families notions of heritage assumptions about biological connections expectations about heterosexuality and legal mandates concerning marriage The questions Goethe's plays and novels pose are often modern and challenging Do social conventions family expectations and legal mandates matter Can two men or two women pair together and be parents How many partners or parents should there be Two One A group Can parents love children not biologically related to them Do biological parents always love their children What is the nature of adoptive parents children and families Ultimately what is the fundamental essence of love and family Gustafson demonstrates that Goethe's conception of the elective affinities is certainly not limited to heterosexual spouses or occasionally to men desiring men A close analysis of Goethe's explication of affinities throughout his literary production reveals his rejection of loveless relationships for example arranged marriages and his acceptance and promotion of all relationships formed through spontaneous affinities

Holloway,2024-12-31 This book argues for a new articulation of the ways in which transgression is theorized in contemporary literature by Japanese women Exploring the rhetorical and discursive mechanics of literary bad girls from fiction produced during the millennial turn 1990 2010 the book contends that women writers today deploy truant unruly restless and aggressive female protagonists not to challenge the status quo but rather to reaffirm it

While Japanese women's fiction has long been invested in cultivating an uncomfortable politics of opposition through unladylike themes such as sex sexuality and violence the book argues that today authors turn to such acts of defiance to quietly advocate for the primacy of Japanese social order Showing how transgression has not only lost its political and disruptive valence in contemporary women's fiction this book further reveals how discourses of dissent can be retooled to promote a conservative worldview A fascinating literary analysis which reads Japanese literature in relation to the receding value of rebellion today this book will be of huge interest to students and scholars of Japanese literature gender and cultural studies

The Family Economy Rory Groves,2024-02-28 Centuries after the triumph of industrialism we find ourselves wrestling through a paradox of wealth and loss of abundance and loneliness The home once the principle factory of

society stands now as a mere shell of its former function and authority The family once the bedrock of civilization is more divided today than it has been at any point in human history In the face of such monumental shifts corrupt philosophies and entrenched interests what can one family possibly do Quite a bit actually We believe the answer can only come from families and it can only start at home The family economy is a concept so foreign to the modern industrial mind that it needs to be re introduced and defined again as the solution that it has been for thousands of years That is what this book intends to do
