## **Fragile Community:**

*Radical Christian Communities* Thomas P. Rausch, 2002-09-27 Throughout the centuries certain Christians chose to live out the challenges of the Gospel in communities that withdrew from the common and conventional in the world This book studies this phenomenon and focuses on a number of contemporary Christian communities lay and religious who respond to the Gospel call to discipleship in a radical way whether by being communities of peace and reconciliation of social ministry and solidarity with the poor of service to the Church or of prayer and contemplation *Transnational Communities*

Marie-Laure Djelic, Sigrid Quack, 2010-05-20 Transnational communities are social groups that emerge from mutual interaction across national boundaries oriented around a common project or imagined identity This common project or identity is constructed and sustained through the active engagement and involvement of at least some of its members Such communities can overlap in different ways with formal organizations but in principle they do not need formal organization to be sustained This book explores the role of transnational communities in relation to the governance of business and economic activity It does so by focusing on a wide range of empirical terrains including discussions of the Laléli market in Istanbul the institutionalization of private equity in Japan the transnational movement for open content licenses and the mobilization around environmental certification These studies show that transnational communities can align the cognitive and normative orientations of their members over time and thereby influence emergent transnational governance arrangements

*Phantom Communities* Scott Durham, 1998 Phantom Communities reconsiders the status of the simulacrum sometimes defined as a copy of a copy but more rigorously defined as a copy that subverts the legitimacy and authority of its model in light of recent debates in literature art philosophy and cultural studies The author pursues two interwoven levels of analysis On one level he explores the poetics of the simulacrum considered as a form that internalizes repetition through close readings of a number of exemplary literary texts paintings and films from both the Anglo American and French traditions including works by Jean Genet Pierre Klossowski Ren Magritte Andy Warhol J G Ballard Balthus and Ra l Ruiz Through his readings of these works the author follows the transformations of the simulacrum showing how its vicissitudes provide an optic for remapping the postmodern canon On another level the author offers an account of the role played by the simulacrum as a theoretical concept that assumes varying analytical and ideological valences in the writings of such theorists as Jean Baudrillard Fredric Jameson Michel Foucault and Gilles Deleuze In so doing Phantom Communities intervenes in ongoing interdisciplinary debates concerning the historical and ideological limits of postmodernism as well as the utopian possibilities of art literature and philosophy in a postmodern context Moving between these debates and the interpretation of individual works the author shows how they converge on the fundamental aesthetic and ideological problem raised by the postmodern culture of the simulacrum imagining the virtual communities that at the margins of postmodern culture are at once figured and eclipsed by its proliferating images Crisis and Care Dustin D. Benac, Erin Weber-Johnson, 2021-06-29 A

deadly pandemic Civic unrest Economic uncertainty The years between the 2016 and 2020 Presidential Elections exposed the vulnerability of our institutions and ourselves like never before In the wake of uncertainty the authors in this volume offer wisdom to make sense of the changes brought by these past four years Reflecting how faith and philanthropy converge they imagine alternative economies for faith communities academia and nonprofits while also marking the unshakable encounter with grief and crisis Authors linger in the space between what was and what will be to ask what do we leave behind what do we bring with us and what possibilities exist where crisis and care converge Their words and wisdom kindle philanthropic imagination in this moment of transition and change

The Crown Estate in Scotland Great Britain: Parliament: House of Commons: Scottish Affairs Committee, 2012-03-19 This report examines the Crown Estate Commissioner's management of the Crown property rights and interests which make up the Crown Estate in Scotland The Commissioner's operations in Scotland can be split into two categories ancient possessions responsibilities and modern activities relating to the buying selling and management of property and land The evidence identified major issues particularly in relation to the seabed and the foreshore including lack of accountability lack of communication and consultation with local communities the inappropriateness of the Commissioner's remit for its responsibilities in the marine environment the cash leakage from local

economies and other adverse impacts There were no such problems in relation to the management of urban and rural estate The Commissioner's responsibilities for the seabed the foreshore and other ancient rights in Scotland should be devolved then decentralized as far as possible Devolution to Holyrood should be conditional upon agreement between the Secretary of State for Scotland and the Scottish Government on how such a scheme of subsidiarity to local authority and local community levels should be implemented This report also sets out how different arrangements could be made for each of the Scottish Crown property rights and responsibilities Further consultation should proceed on the basis of proposals set out by the Highlands and Islands local authorities which provides a clear framework on which to base discussion **The Invention of**
