Fragment Of A Great Confession:

Typography Philippe Lacoue-Labarthe, Christopher Fynsk, 1998 Philosopher literary critic translator of Nietzsche and Benjamin Philippe Lacoue Labarthe is one of the leading intellectual figures in France This volume of six essays deals with the relation between philosophy and aesthetics particularly the role of mimesis in a metaphysics of representation Comment 1997 Typography is a book whose importance has not diminished since its first publication in French in 1979 On the contrary I would say it is only now that one can truly begin to appreciate the groundbreaking status of these essays The points it makes the way it approaches the questions of mimesis fictionality and figurality is unique There are no comparable books or books that could supersede it Rudolphe Gasch State University of New York Buffalo Lacoue Labarthe s essays still set the standards for thinking through the problem of subjectivity without simply retreating behind insights already gained But this book is much more than a collection of essays it constitutes a philosophical project in its own right Anybody interested in the problem of mimesis whether from a psychoanalytic platonic or any other philosophical angle cannot avoid an encounter with this book Lacoue Labarthe is a philosopher and a comparatist in the highest sense of the word and the breadth of his knowledge and the rigor of his thought are exemplary Eva Geulen New York University Review In demonstrating how mimesis has determined philosophical thought Lacoue Labarthe provokes us into reconsidering our understanding of history and politics Together with the introduction these essays are essential reading for anyone interested in Heidegger postmodernism and the history of mimesis in philosophy and literature The Review of Metaphysics **Fragment of a Great Confession** Theodor Reik, 1973 *Faust* Johann Wolfgang von Goethe, 1919 The Classical Centre T. J. Reed, 2020-01-31 Originally published in 1980 this book examines the nature and significance of Classicism as a literary phenomenon and relates the beginnings of the German variety to the search for a national identity in the circumstances of a politically fragmented eighteenth century Germany It surveys the pre classical scene traces the intellectual currents and the literary forms and material which Classicism was to synthesise and presents its theoretical basis The major works of Goethe and Schiller in the decade of their partnership are analysed Their response to political events is placed in the contemporary context and the divergences which challenge Classicism are discussed **Goethe's Faust, tr. by A. Swanwick** Johann Wolfgang von Goethe, 1879 Works Johann Wolfgang von Goethe, 1883 Goethe's Faust Johann Wolfgang von Goethe, 1881 *The first part of Goethe's Faust, tr. by A. Swanwick* Johann Wolfgang von Goethe, 1893 **University of Toronto Quarterly** University of Toronto, 1956 **In the Cross of Reality** Eugen Rosenstock-Huessy, 2017-09-08 This book makes the first volume of Eugen Rosenstock Huessy s Soziologie available in English for the first time since its 1956 publication in German Rosenstock Huessy argues that social philosophy has favored abstract and spatially contrived categories of social organization over temporal processes This preference for space thinking has diverted us from recognizing the power of speech and its relationship to living on the front lines of life Taking speech and the social

responsibilities and reciprocities that accompany naming as the key to social reality In the Cross of Reality provides a sociological exploration of play spaces as the basis for reflexivity It also explores the spaces of activity and their correlation in war and peace to the spheres of serious life If we are to survive and flourish different qualities and reciprocal relationships must be cultivated so that we can deal with different fronts of life Arguing that modern intellectuals and their obsession with space have created a dangerously false choice between mechanical and aesthetic salvation Rosenstock Huessey clears a path so that we better appreciate our relationship between past and future in founding and in partitioning time **A History of**

English Autobiography Adam Smyth,2016-04-04 This History explores the genealogy of autobiographical writing in England from the medieval period to the digital era **A Modern Poetics of Biography** Zhengrun Yang,2025-09-02 This book provides a comprehensive study of biography to summarize the standard forms as well as a range of peripheral and expanded forms of auto biography Discussion and analyses to be done at three levels namely ontology typology and writing It is drawn from local and international theories in biography in addition to related disciplines in particular for those of the twentieth century and summarizing the experiences of the writing of classics in both Chinese and Western biographical history the study establishes a theoretical system of biography This book can serve as a useful reference for postgraduate students and professional readers who are interested in biographical research **The Great Confession: from Aksakov**

and De Quincey to Tolstoy and Proust Esther Salaman,1973 **Goethe's Allegories of Identity** Jane K. Brown,2014-01-16 A century before psychoanalytic discourse codified a scientific language to describe the landscape of the mind Johann Wolfgang von Goethe explored the paradoxes of an interior self separate from a conscious self Though long acknowledged by the developers of depth psychology and by its historians Goethe s literary rendering of interiority has not been the subject of detailed analysis in itself Goethe s Allegories of Identity examines how Goethe created the essential bridge between the psychological insights of his contemporary Jean Jacques Rousseau and the psychoanalytic theories of his admirer Sigmund Freud Equally fascinated and repelled by Rousseau s vision of an unconscious self Goethe struggled with the moral question of subjectivity what is the relation of conscience to consciousness To explore this inner conflict through language Goethe developed a unique mode of allegorical representation that modernized the long tradition of dramatic personification in European drama Jane K Brown s deft focused readings of Goethe s major dramas and novels from The Sorrows of Young Werther to Elective Affinities reveal each text s engagement with the concept of a subconscious or unconscious psyche whose workings are largely inaccessible to the rational mind As Brown demonstrates Goethe s representational strategies fashioned a language of subjectivity that deeply influenced the conceptions of important twentieth century thinkers such as Freud Michel Foucault and Hannah Arendt Dissonance (if you are interested)

Rosmarie Waldrop,2005-08-21 Incisive essays on modern poetry and translation by a noted poet translator and critic As an immigrant to the United States from Germany Rosmarie Waldrop has wrestled with the problems of language posed by the

discrepancies between her native and adopted tongues and the problems of translating from one to the other Those discrepancies and disjunctions instead of posing problems to be overcome have become for Waldrop a generative force and the very foundation of her interests as a critic and poet In this comprehensive collection of her essays Waldrop addresses considerations central to her life's work typical genres and ways of countering the conventions of genre how concrete poets have made syntax spatial rather than grammatical and the move away from metaphor in poetry toward contiguity and metonymy Three essays on translation struggle with the sources and targets of translation of the degree of strangeness or foreignness a translator should allow into any English translation Finally other essays examine the two way traffic between reading and writing and Waldrop's notion of reading as experience

Essays from the "No Happy End" Workshop, Bard College, February 13-15, 2000 David Kettler, 2002 Psychoanalytic Memoirs Jeffrey Berman, 2022-11-17 The first book length study of the psychoanalytic memoir this book examines key examples of the genre including Sigmund Freud's mistitled *An Autobiographical Study* Helene Deutsch's *Confrontations with Myself* An Epilogue Wilfred Bion's *War Memoirs* 1917-1919 Masud Khan's *The Long Wait* Sophie Freud's *Living in the Shadow of the Freud Family* and Irvin D Yalom and Marilyn Yalom's *A Matter of Death and Life* Offering in each chapter a brief character sketch of the memoirist the book shows how personal writing fits into their other work often demonstrating the continuities and discontinuities in an author's life as well as discussing each author's contributions to psychoanalysis whether positive or negative Journal of Psychology and Judaism, 1985 *The Literary World*, 1887 *Hysterical Men* Mark S MICALE, Mark S Micale, 2009-06-30 Over the course of several centuries Western masculinity has successfully established itself as the voice of reason knowledge and sanity the basis for patriarchal rule in the face of massive testimony to the contrary This book boldly challenges this triumphant vision of the stable and secure male by examining the central role played by modern science and medicine in constructing and sustaining it
