Fragments Of Modernity:

Fragments of Modernity (Routledge Revivals) David Frisby, 2013-09-13 *Fragments of Modernity* first published in 1985 provides a critical introduction to the work of three of the most original German thinkers of the early twentieth century. In their different ways all three illuminated the experience of the modern urban life whether in mid nineteenth century Paris Berlin at the turn of the twentieth century or later as the vanguard city of the Weimar Republic. They related the new modes of experiencing the world to the maturation of the money economy, Simmel the process of rationalization of capital, Kracauer and the fantasy world of commodity fetishism, Benjamin. In each case they focus on those fragments of social experience that could best capture the sense of modernity. [Fragments of Modernity](#) David Frisby, 1988

[The Detective of Modernity](#) Georgia Giannakopoulou, Graeme Gilloch, 2020-12-30 This book explores the thought of and is dedicated to David Frisby, one of the leading sociologists of the late twentieth and early twenty first centuries. Presenting original examinations of his unique social theory and underlining his interdisciplinary approach to the critical interpretation of modern metropolitan society and culture, it emphasises Frisby's legacy in highlighting the role of the social researcher as a collector, reader, observer, detective and archivist of the phenomena and ideas that exemplify the modern metropolis as society. With contributions from sociologists, cultural theorists, historians of the city, urban geographers and designers and architectural historians and theorists, *The Detective of Modernity* constitutes a wide ranging engagement with Frisby's profound legacy in social and cultural theory.

Jewish Music and Modernity Philip Bohlman, 2012 Bohlman investigates several aspects of Jewish music within the context of the period beginning with the emancipation of German Jewish culture during the eighteenth century and culminating in the destruction of that same culture under the Nazis.

Creativity and Critique Glenda Ballantyne,2007-10-30 Many commentators have noted the fertile new intellectual period Critique of Modernity opened up in the social theory of Alain Touraine but until now its innovations have not been the subject of a sustained analysis This work locates the wellsprings of Touraine's renewed interpretive power in an implicit and unfinished but unmistakable hermeneutical turn To deepen and extend his potent but only partly developed insights the second part of the book develops his hermeneutical premises more explicitly through a dialogue with the hermeneutical philosophy of Paul Ricoeur The outcome is a critical hermeneutics of the subject which opens new possibilities for theorising human agency and social creativity and renews the project of critical theory **God, the Gift, and Postmodernism** John D. Caputo,Michael J. Scanlon,1999-12-22 Pushing past the constraints of postmodernism which cast reason and religion in opposition *God the Gift and Postmodernism* seizes the opportunity to question the authority of the modern and open the limits of possible experience including the call to religious experience as a new millennium approaches Jacques Derrida the father of deconstruction engages with Jean Luc Marion and other religious philosophers to entertain questions about intention givenness and possibility which reveal the extent to which deconstruction is structured like religion New interpretations of Kant Heidegger Husserl and Derrida emerge from essays and discussions with distinguished philosophers and theologians from the United States and Europe The result is that *God the Gift and Postmodernism* elaborates a radical phenomenology that stretches the limits of its possibility and explores areas where philosophy and religion have become increasingly and surprisingly convergent Contributors include John D Caputo John Dominic Crossan Jacques Derrida Robert Dodaro Richard Kearney Jean Luc Marion Frangoise Meltzer Michael J Scanlon Mark C Taylor David Tracy Merold Westphal and Edith Wyschogrod Writing the City Desmond Harding,2004-06 This work examines and challenges the traditional

transatlantic axis London Paris New York that marks the intersection between western thinking about the City and the advent of literary modernism

Fragments of the City Colin McFarlane, 2021-10-05 Cities are becoming increasingly fragmented materially socially and spatially From broken toilets and everyday things to art and forms of writing fragments are signatures of urban worlds and provocations for change In *Fragments of the City* Colin McFarlane examines such fragments what they are and how they come to matter in the experience politics and expression of cities How does the city appear when we look at it through its fragments For those living on the economic margins the city is often experienced as a set of fragments Much of what low income residents deal with on a daily basis is fragments of stuff made and remade with and through urban density social infrastructure and political practice In this book McFarlane explores infrastructure in Mumbai Kampala and Cape Town artistic montages in Los Angeles and Dakar refugee struggles in Berlin and the repurposing of fragments in Hong Kong and New York Fragments surface as material things as forms of knowledge as writing strategies They are used in efforts to politicize the city and in urban writing to capture life and change in the world's major cities *Fragments of the City* surveys the role of fragments in how urban worlds are understood revealed written and changed

Global Fragments Eduardo Mendieta, 2012-02-01 *Global Fragments* offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized

Siddiqi, 2025-05-20 Looking beyond the well-trodden celebratory narratives of space exploration and the powerful nostalgia of lunar landings *Cosmic Fragments* focuses instead on the moral ambiguities of spaceflight Beyond the fetishization of machines men and manifest destiny and the Cold War tensions of the
