A System's Evaluation of Global History of Indian Architecture Joy Sen,2016-12-02 Deep within an inner cave guhahitam of our existence remains our potential Divinity It is the place where our reflected sentient being the First Bird is trying to probe into to recover the hidden sun The allegory is evident in the parable of the Cave once preached by the Upanishads and later by the Greek philosopher Plato The probe is to push forward the First Bird to surge higher in the resplendent celestial blue under the full radiance of the Solar world which is the Second resulting in an explosion of an infinite all pervading Divinity Till the union and the rapture is attained there are the two Birds one the psychic being which is within us and the other one which is the direct portion of the Divine The direct portion is constantly trying to guide and work within us so that evolution goes on and on In the words of Sri Aurobindo it is the haitya Purusha the direct portion of the Divine in the human which is working incessantly till the rapture is activated Ancient roots are evident in the ancient Swetaswatara Upanishad hailed by the primordial Sage Kapila and coded originally in a later text called the Bhagabat Purana The haitya Purusha is also the being that is behind the Chitta Sri Aurobindo says Millenniums later the inspired Architects in the most ancient of all Buddhist ages had carved out the sacred idea in form of rock cut expressions called the Chaitya hall As the Mahayana Sutra of the foremost Shurangama at the Crown of the Great Buddha says the way of practicing the Samadhi is not singular and its actual method of cultivation depends upon the functioning of mind and mental concomitants Citta Chaitya pravritti of each being and their

interconnectedness Mahat It is in the recovery or a re tracing of the two as a DIVINITY that is originally ONE an individual s journey called evolution and a collective journey called civilization itself are sustained It is also from the deeper embedded patterns of this journey the gems of the system s foundation can be quarried

Proving International Crimes Yvonne McDermott,2024-08-19 Proving International Crimes elucidates how international criminal tribunals have tackled the immense and complex task of proving international crimes such as genocide war crimes and crimes against humanity The challenges posed by the scale and scope of these crimes and the distance in time and space between their commission and their prosecution are well known Nevertheless investigators lawyers scholars and policy makers often look to the law and practice of international criminal tribunals to establish what standards need to be met in the collection preservation presentation and analysis of evidence to prove international crimes In offering a comprehensive account of the law and practice of evidence before international criminal courts and tribunals to date as well as recommendations for future practice this book aims to inform domestic regional and international accountability processes for crimes going forward This book demonstrates that owing to the flexibility built in to the legal and procedural frameworks of international criminal courts and tribunals the law of international criminal evidence is often unpredictable and uncertain To this end McDermott argues for the development of a coherent epistemic framework driven by two guiding principles rectitude of decision and the highest standards of fairness
