

Questions

- 10) For a brief period after the French Revolution, French judges were forbidden to “interpret” statutes. If doubt about the meaning of a statute arose during a case, judges were supposed to petition the legislature to interpret the statute and then apply the legislature’s interpretation to the case. The procedure was known as *référé législatif*. Do you think that’s a good procedure? Should we adopt it in the United States? Can you guess why it was abandoned in France? (A-C1 only)
- 11) The United States has among the harshest drug laws in the world and among the highest prison populations. Should those facts influence judges in interpreting 18 U.S.C. §924(c)(1)?

instrumental in preventing the government of Napoleon III from recognizing the Confederacy After the Revolutions of 1848 the aftermath of which disillusioned him a dominant theme in Laboulaye s writings was that America provided France with a model constitution that guaranteed individual liberties and a stable political system it was his great hope that his country would follow this example As France s leading Americanist Laboulaye s energies were devoted to lectures on American history and politics and work on behalf of the North during the Civil War He was also a translator of the works of those Americans for whom he had a special devotion Franklin Channing and Mann As a founding father of the Third Republic Laboulaye drew great satisfaction from the fact that some principles drawn from the American political tradition were embodied in its constitutional laws Additionally Laboulaye was the first Frenchman to give a course on American history at a French university and he later published a three volume history of the United States which stands as his masterpiece He was a member of the liberal opposition to Napoleon III and after 1870 became active in the Third Republic serving as deputy and later senator for life In France Laboulaye is primarily known as a professor at the respected College de France a position he maintained throughout his entire career and as a member of the Institut de France He was also president of the French Anti Slavery Society Laboulaye was in fact a savant of almost universal interests who held a place at the center of French intellectual life during the Second Empire and the early Third Republic His bibliography comprised of books pamphlets essays children s stories and articles totals over two hundred entries His final years as a senator for life were devoted in large part to a successful fundraising campaign for the Statute of Liberty which he did not live to see erected in New York Harbor and to carrying on the fight for political liberty as he envisioned it This book is based on extensive research into the unpublished papers of Laboulaye which are still in his family s possession and manuscripts in other depositories in France and the United States BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

cartographical material representing territories from across the five continents This book intends to contribute to that ideally comprehensive yet always unfinished Atlas with pieces gathered from all of the Earth's regions However its focus is not so much of a geographical nature although maps and geographical reflections are not absent in its pages but of a historical analytical one As such the Atlas engages in the historical analysis of interpreters of both language and cultures in multiple interpreting settings and places including in zones which are less frequently studied in specialized literature in different historical periods and at various scales All the interpreters described in the book share the ability to speak two or more languages and to use them as vehicles otherwise their individual socio professional statuses vary so much that there is no similarity between a Venetian dragoman in Istanbul and a prisoner of war or between a locally recruited interpreter and a missionary Each contributor has approached the specific spatial and temporal dimensions of their subject as perceived through their different methodological lenses This multifaceted perspective which is expected to provide fertile soil for future interdisciplinary research has been possible thanks to a balanced combination of scholars from History and from Translation and Interpreting Studies *Interpreting American Military History at Museums and Historic Sites* Marc K.

Blackburn, 2016-04-08 Across the country museums and historic sites welcome visitors into a world long gone but fundamental to America today Military history in particular is etched into our country's culture and the public's imagination The trouble though for museums and historical sites lies in continuing to make it both accessible and relevant to today's audiences Through *Interpreting American Military History at Museums and Historic Sites* Marc K Blackburn tackles the difficult task of helping those institutions charged with the care of sites collections and stories that relate to our past relatable while still maintaining the dignity and reverence of their rich history Looking at the various components of American military history such as battles and famous figures Blackburn provides alternatives to the traditional museum experience The 21st century is a culmination of the past and it is more important than ever to remember and learn from the triumphs and failures and this guide provides and explains those strategies for making our stories and collections relevant to modern audiences This book acts as a primer for those unfamiliar with academic trends of the last forty years Historiography of American military history like that of other sub fields shifts as new information surfaces or as perspectives change Blackburn modernizes this area through new interpretative methods as well as through case studies of museums and historic sites that have created programs interpretive media outreach strategies and mission goals updated to meet the needs of today's patrons Armed with these strategies historic institutions will have the foundation to provide compelling relevant and engaging experiences for the 21st century audience *Christian Interpretation of American History* Garrett Heyns, Garritt E.
