World Agricultural Supply and Demand Estimates ,2007 *Time and Power* Christopher Clark,2019-01-22 From the author of the national bestseller *The Sleepwalkers* a book about how the exercise of power is shaped by different concepts of time This groundbreaking book presents new perspectives on how the exercise of power is shaped by different notions of time Acclaimed historian Christopher Clark draws on four key figures from German history Friedrich Wilhelm of Brandenburg Prussia Frederick the Great Otto von Bismarck and Adolf Hitler to look at history through a temporal lens and ask how historical actors and their regimes embody unique conceptions of time Inspired by the insights of Reinhart Koselleck and Francois Hartog two pioneers of the temporal turn in historiography Clark shows how Friedrich Wilhelm rejected the notion of continuity with the past believing instead that a sovereign must liberate the state from the entanglements of tradition to choose freely among different possible futures He demonstrates how Frederick the Great abandoned this paradigm for a neoclassical vision of history in which sovereign and state transcend time altogether and how Bismarck believed that the statesman s duty was to preserve the timeless permanence of the state amid the torrent of historical change Clark describes how Hitler did not seek to revolutionize history like Stalin and Mussolini but instead sought to evade history altogether emphasizing timeless racial archetypes and a prophetically foretold future Elegantly written and boldly innovative *Time and Power* takes readers from the Thirty Years War to the fall of the Third Reich revealing the connection between political power and the distinct temporalities of the leaders who wield it **Making Space for the Dead** Erin-Marie Legacey,2019-04-15 The dead of Paris before the French Revolution were most often consigned to mass graveyards that

contemporaries described as terrible and terrifying emitting putrid miasmas that were a threat to both health and dignity In a book that is at once wonderfully macabre and exceptionally informative Erin Marie Legacey explores how a new burial culture emerged in Paris as a result of both revolutionary fervor and public health concerns resulting in the construction of park like cemeteries on the outskirts of the city and a vast underground ossuary Making Space for the Dead describes how revolutionaries placed the dead at the center of their republican project of radical reinvention of French society and envisioned a future where graveyards would do more than safely contain human remains they would serve to educate and inspire the living Legacey unearths the unexpectedly lively process by which burial sites were reimagined built and used focusing on three of the most important of these new spaces the Paris Catacombs P re Lachaise cemetery and the short lived Museum of French Monuments By situating discussions of death and memory in the nation s broader cultural and political context as well as highlighting how ordinary Parisians understood and experienced these sites she shows how the treatment of the dead became central to the reconstruction of Parisian society after the Revolution
