Forthcoming Books Rose Arny, 1999-04 *The Worlding Project* Christopher Leigh Connery, Rob Wilson, 2007-10-30
Globalization discourse now presumes that the world space is entirely at the mercy of market norms and forms promulgated by reactionary U S policies An academic but accessible set of studies this wide range of essays by noted scholars challenges this paradigm with diverse and strong arguments Taking on topics that range from the medieval Mediterranean to contemporary Jamaican music from Hong Kong martial arts cinema to Taiwanese politics writers such as David Palumbo Liu Meaghan Morris James Clifford and others use innovative cultural studies to challenge the globalization narrative with a new and trenchant tactic called worlding The book posits that world literature cultural studies and disciplinary practices must be worlded into expressions from disparate critical angles of vision multiple frameworks and field practices as yet emerging or unidentified This opens up a major rethinking of historical givens from Rob Wilson s reinvention of The White Surfer Dude to Sharon Kinoshita s Deprovincializing the Middle Ages Building on the work of cultural critics like Edward Said Gayatri Spivak and Kenneth Burke The Worlding Project is an important manifesto that aims to redefine the aesthetics and politics of postcolonial globalization with alternative forms and frames of global becoming *Stalemate in Vietnam* Joseph S. Clark, 1968 **The British National Bibliography** Arthur James Wells, 1996 **America in Vietnam** Herbert Y. Schandler, 2009-08-16 This controversial and timely book about the American experience in Vietnam provides the first full exploration of the perspectives of the North Vietnamese leadership before during and after the war Herbert Y Schandler offers unique insights into the mindsets of the North Vietnamese and their response to diplomatic and military actions of the Americans laying out the full scale of the disastrous U S political and military misunderstandings of Vietnamese history and motivations Including frank quotes from Vietnamese leaders the book offers important new knowledge that allows us to learn invaluable lessons from the perspective of a victorious enemy Unlike most military officers who served in Vietnam Schandler is convinced the war was unwinnable no matter how long America stayed the course or how many resources were devoted to it He is remarkably qualified to make these judgments as an infantry commander during the Vietnam War a Pentagon policymaker and a scholar who taught at West Point and National Defense University His extensive personal interviews with North Vietnamese are drawn from his many trips to Hanoi after the war Schandler provides not only a definitive analysis of the American failure in Vietnam but a crucial foundation for exploring the potential for success in the current guerrilla wars the United States is fighting in Iraq and Afghanistan **The Combined Action Platoons** Michael Peterson, 1989-06-26 This is the first comprehensive history for the academic reader of the Combined Action Program CAP in Vietnam Created as a response by the U S Marines to what was known as the other war in Vietnam the CAP Program was comprised of platoons each combining a fourteen man marine rifle squad a navy corpsman and a platoon of South Vietnamese militia These CAP units were unique to the war Their function was to capture and hold rather than to search and destroy While the main forces

of the Army and Marines all too often waged war on the Vietnamese hamlets the CAP marines waged war from the hamlets Their intent was to keep the hamlet intact The uniqueness of the CAP Program justifies this study not only from an historical and political perspective but also sociologically The CAP Marines were among the few Americans who lived with the Vietnamese in their own setting for long periods of time developing community projects and civic action programs The 1980s has brought about a resurgence of valuable research the declassification of official documentation and most important an emotional distance from the trauma of defeat The author takes full advantage of these conditions to present a thorough and comprehensive history and civic program analysis Many critics of the Vietnam War now agree that the tactics of the Combined Action Program were among the most promising of the war The CAP Marines fought a deadly and personal war with the Viet Cong and the North Vietnamese Army In this volume the author achieves his twofold objective He not only provides a valuable historical account of the Program but also analyzes the civic action and community development projects undertaken by the CAP Marines His study is done with an eye to the future as U S counterinsurgency has again found expression in other Third World conflicts
