## **Hamlyn History The Boer War 1899 19:**

**Silence of the Guns** Louis Changuion, 2001 After the unsuccessful Jameson Raid of 1896 the Kruger government realized how vulnerable the South African Republic was Four forts were therefore built around Pretoria For each fort a 155 mm gun was bought from the firm Schneider et Cie in Le Creusot France When the Anglo Boer War erupted in 1899 these guns were taken from Pretoria to be used against the British at the sieges of Ladysmith Mafeking and Kimberley After the relief of these towns and especially after the Boers adopted guerrilla tactics the Long Toms became a burden because they could not easily be moved about The result was that the Boers destroyed the Long Toms to prevent the guns being taken by the enemy Several myths and legends about these four guns had their origin during the war And as is so typical with folklore it is often difficult to distinguish between what is fact and what is fiction about the Long Toms especially as accounts have come to us through the years by means of oral tradition Were they really as formidable as the Boers made them out to be Did they really outclass the British guns in range as well as in accuracy and effectiveness And what happened to them eventually Why are there today no Long Toms to be seen anywhere How did they disappear Were they destroyed by the Boers themselves and if not what happened to them after the war Is there as rumor has it one lying somewhere in a hidden kloof where it was dumped by the Boers still waiting to be found What happened to their remains Why are the remains nowhere to be seen Is there still a complete Long Tom somewhere in England

**Memorializing the Anglo-Boer War of 1899-1902** Valerie B. Parkhouse, 2015-01-28 Memorializing the Anglo Boer War of 1899 1902 is a study of a group of memorials to soldiers who fought in a now nearly forgotten war and deals with the many factors influencing why there was such an unprecedented number of memorials compared to those to previous conflicts like the Crimean War fifty years earlier One of the most important issues was the impact of changes in the organization of the British Army in the late 1800s particularly the creation of locally based regiments heavily manned by volunteers drawn from local communities The book includes a detailed commentary on the social conditions in England that also account for the unprecedented number of commemorations of this conflict It discusses the variety of forms memorials took informal drinking fountains Spion Kop stands at football stadiums formal stained glass windows statues etc and the numerous and diverse places where they were located cathedrals town squares public schools and universities The growth of the national press and the rise of literacy is dealt with in detail as well as the telegraph whose invention meant that news became available overnight Space is given to discuss the expression of Victorian prosperity in public works The part played by the established church is well documented and an insight is given into the contribution of Imperialism patriotism and jingoism All these factors explain the motivation for the memorials creation The book is illustrated with photographs and articles from newspapers of the day Appendices cover those who are not commemorated lost memorials those who unveiled the memorials colonial involvement and more Memorializing the Anglo Boer War of 1899 1902 will appeal particularly to social historians and students of military and social history

Butterworth, 2017-06-14 The institutional relationship between sport and the military appears to be intensifying In the US for example which faced global criticism for its foreign policy during the war on terror militaristic images are commonplace at sporting events The growing global phenomenon of conflating sport with war calls for closer analysis This critical interdisciplinary and international book seeks to identify intersections of sport and militarism as a means to interrogate interrupt and intervene on behalf of democratic peaceful politics Viewing sport as a crucial site in which militarism is made visible and legitimate the book explores the connections between sport the military and the state and their consequent impact on wider culture Featuring case studies on sports such as association football baseball and athletics from countries including the US UK Germany Canada South Africa Brazil and Japan each chapter sheds new light on the shifting significance of sport in our society This book is fascinating reading for all those interested in sport and politics the sociology of sport communication studies the ethics and philosophy of sport or military sociology **Burke's Genealogical and Heraldic History of the Landed Gentry** Bernard Burke, 1972 British Books in Print ,1985
